Referral for Adaptations

Date of Assessment: Initial Assessment 06/06/2019 and reviewed by P.Swain 16/11/2022. Approved by panel 16/03/2023.

Name: Yaseen Akram

Address: 75 Wilson Street, Pimhole, Bury BL9 7EU

Telephone: 07814063641

Date of Birth: 24/01/1984

The above customer was assessed due to difficulties in the home.

Brief Description of their difficulties:

Mr Akram has impaired mobility and transfers due to his medical condition and is confined to living in the ground floor living room and having bed baths. A through floor lift and stairlift has been considered but a stairlift is not practical to meet his long-term needs and the layout of the house is not suitable for a through floor lift.

Occupational Therapist has recommended that they meet the criteria for adaptations from a clinical point of view. This will enable them to continue with activities of daily living and promote independence and safety for them and their carers.

The property is currently not suitable without the adaptation.

Kind Regards,

Peter Swain
