3. Description of Proposed Works

Please describe the proposed works:

It is proposed to build a flood barrier and soil retention wall on the property of 21 Hey Croft. The work is necessary to prevent seasonal flooding from the pond adjacent to the entire length of the front garden of 21 Hey Croft. This to prevent damage to the property.

In addition the subsoil beneath the area of the proposed flood barrier is blue clay giving very poor drainage and instability. This is resulting in topsoil erosion and undermining a newly built drive which is now beginning to crack.
