Paths and Surfacing Key

- A - Path alongside canal feeder**
path width limited to existing 1.5m but passing places added for pushchairs and wheelchairs. Look at a new bound surface to create a fully accessible loop path.
- B - Riverside Path PRIORITY A**
path to be relocated away from edge of River Irwell to prevent further scouring and deterioration. Path width increased from 1.2m to 2m. Path surface to have natural appearance
- C - Aqueduct/Riverside link**
path to be realigned slightly at 1.2m wide and surfaced in stone to dust to give natural appearance
- D - Showground hardstanding**
new bitmac surfacing at entrance to showground to prevent damage to grass during events
- E - Pipe bridge / Stock Street link PRIORITY A**
minor realignment to existing path to accommodate fishing pegs. Path width increased to 2m; surface to be a bound material, creating a fully accessible path to the cafe
- F - Woodhill Road / pipe bridge link**
access to car park to maintained at 2.4m wide and surfaced with stone to dust
- G - Riverside Loop**
2m wide path from pipe bridge to north railway viaduct; path at 1.5m wide maximum along the river. Path to be surfaced with stone to dust for natural appearance
- H - Cafe Link**
path at 1.5m wide, surfaced with stone to dust for natural appearance
- I - Access roads to Overspill Car Parks**
path surfaced to 4m wide with stone to dust to allow for overflow parking and traffic during events. Smaller network of paths to heritage features to be upgraded at 1.2m wide
- J - Woodhill Road - link this work to 'M - Overspill Car Park'**
new path at 2m wide along Woodhill Road including along overspill car park. Surface material to be porous to prevent damage to existing tree roots along the route. To include a new zebra crossing on Woodhill Road for continuous safe pedestrian access to the Park
- K - Car Parks**
car park by main entrance to be resurfaced and made good with new white lining; car park by chimney to be made good with new white lining
- L - Brown Cow**
scheme to raise and resurface ground in front of the Brown Cow pub to create a usable and safe space
- M - Overspill Car Park 1 PRIORITY A**
to be formalised with plastic geogrid surface for access road and car parking bays

- KEY**
