

NOTICE OF PLANNING PERMISSION

Town and Country Planning Act 1990 Town and Country Planning (Development Management Procedure) (England) Order 2015

To:

Mr David Hamer
Bradshaw Gass and Hope LLP
2nd Floor
Regent House
Folds Road
Bolton
BL1 2RZ

On Behalf Of:

S Horrocks
Bury Council
3 Knowsley Place
Bury
BL90AW

PART 1 - Particulars of Application

Application Number: 72282

Date of Registration: 04/09/2025

Proposal:

Variation of condition nos. 12 (landscaping scheme) to mitigate loss of trees/vegetation, 13 (tree removal/retention plan) revised tree retention and protection drawing to reflect current situation, 15 (biodiversity mitigation and enhancement) updated report to reflect mitigations for lost trees and condition 3 (materials) change of colour of profiled metal roof system from RAL 7004 to RAL 0005500, and change of curtain walling material to Meteor Steel Grey (Satin) A21.7.0 following approval of planning permission 70576

Location:

Millwood Primary Special School, School Street, Radcliffe, Manchester, M26 3BW

PART 2 - Particulars of Decision

Bury Metropolitan Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 that permission has been **GRANTED** for the carrying out of the development referred to in Part 1 hereof in accordance with the application and plans submitted subject to the following conditions:-

- 1 The development must be begun not later than 20th December 2026.
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.
- 2 This decision relates to drawings numbered MSE-BGH-02-XX-DR-A-2001 P1, MSE-BGH-02-XX-DR-A-2003 P2, MSE-BGH-02-XX-DR-A-2002 P2, MSE-BGH-02-XX-DR-A-2004 P2, 2493_03 P2, 2493_02 P2, 249_01 P2, MSE-BGH-02-XX-DR-A-2103 P2, MSE-BGH-02-XX-DR-A-2102 P2 and the development shall not be carried out except in accordance with the drawings hereby approved.
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design pursuant to the policies of the Development Plan listed.

- 3 The profiled metal roof system shall be finished in RAL 0005500, and the curtain walling constructed from Meteon Steel Grey (Satin) A21.7.0. Only the approved materials/bricks referenced in the condition discharge application for condition 3 of 70195 shall be used for the construction of the rest of development.
Reason. No material samples have been submitted and are required in the interests of visual amenity and to ensure a satisfactory development pursuant to Development Plan Policy JP-P1 - Sustainable Places.
- 4 Following the provisions of Condition 4 of planning permission 70195, where remediation is required, the approved Remediation Strategy must be carried out to the satisfaction of the Local Planning Authority within agreed timescales; and A Site Verification Report detailing the actions taken and conclusions at each stage of the remediation works, including substantiating evidence, shall be submitted to and approved in writing by the Local Planning Authority prior to the development being brought into use.
Reason. To secure the satisfactory development of the site in terms of human health, controlled waters and the wider environment and pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 5 No development (excluding demolition, site clearance and enabling works) shall commence unless and until any remediation works and/or mitigation measures to address the shallow mine workings, as may be necessary, have been implemented on site in full in order to ensure that the site is safe and stable for the development proposed.
The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.
Reason. The scheme does not provide full details of the actual contamination and subsequent remediation, which is required to secure the satisfactory development of the site in terms of human health, controlled waters, ground gas and the wider environment and pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 6 Prior to the occupation of the development, or it being taken into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to and approved in writing by the Local Planning Authority. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by the recorded mine entry.
Reason. To secure the satisfactory development of the site in terms of human health, controlled waters and the wider environment and pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 7 The development shall be implemented in accordance with the Construction Traffic Management Plan (CTMP) approved under the condition discharge application for condition 8 of 70195.

The approved plan shall be adhered to throughout the demolition/construction period and the measures shall be retained and facilities used for the intended purpose for the duration of the demolition and construction periods. The areas identified shall not be used for any other purposes other than the turning/parking of vehicles and storage of demolition/construction materials.
Reason. Information not submitted at application stage. To mitigate the impact of the construction traffic generated by the proposed development on the adjacent residential streets, and ensure adequate off street car parking provision and

materials storage arrangements for the duration of the construction period and that the adopted highways are kept free of deposited material from the ground works operations, in the interests of highway safety pursuant to Development Plan Policies EN1/2 - Townscape and Built Design, JP- C5 - Streets and All and JP-C6 Walking and Cycling.

- 8 The turning facilities indicated on the approved plans for application 70195 shall be provided before the development hereby approved is brought into use and the areas used for the manoeuvring of vehicles shall subsequently be maintained free of obstruction at all times.
Reason. To minimise the standing and turning movements of vehicles on the highway in the interests of road safety pursuant to Policy CF1/1 - Location of New Community Facilities and Policy EN1/2 - Townscape and Built Design of the Bury Unitary Development Plan.
- 9 The car parking indicated on the approved plans for application 70195 shall be surfaced, demarcated and made available for use to the satisfaction of the Local Planning Authority before the development hereby approved is brought into use and thereafter maintained at all times.
Reason. To ensure adequate off street car parking provision in the interests of road safety pursuant to Policy HT2/4 - Car Parking and New Development of the Bury Unitary Development Plan.
- 10 The surface water drainage scheme approved as part of the condition discharge application for condition 11 of 70195 only shall be implemented prior to first occupation and thereafter maintained.
Reason. The current application contains insufficient information regarding the proposed drainage scheme to fully assess the impact. To promote sustainable development and reduce flood risk pursuant to Unitary Development Plan Policies JP-S4 - Flood Risk and the Water Environment , EN7/3 - Water Pollution and EN7/5 - Waste Water Management and chapter 14 - Meeting the challenge of climate change, flooding and coastal change of the NPPF.
- 11 The CEMP approved under the condition discharge application for condition 12 of 70195 shall be in place prior to works commencing and for the duration of the works.
Reason. In order to ensure that no harm is caused to the Manchester, Bolton and Bury canal pursuant to Development Plan Policies JP-G8 - A Net Enhancement of Biodiversity and Geodiversity and EN6/3 - Features of Ecological Value and National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 12 The landscaping scheme drawings 2493_02 Rev P2 and 2493_03 Rev P2 hereby approved shall be implemented not later than 12 months from the date the building is first occupied. Any trees or shrubs removed, dying or becoming severely damaged or becoming seriously diseased within 5 years of planting shall be replaced by trees or shrubs of a similar size and species to those originally required to be planted.
Reason. To secure the satisfactory development of the site and in the interests of visual amenity pursuant to Policies EN8/2 – Woodland and Tree Planting and Policy JP-G7: Trees and Woodland of the Development Plan.
- 13 All trees to be retained on site as shown on the tree removal/retention plan and tree protection drawing 2493_01 Rev P2 shall be protected in accordance with BS 5837:2012 "Trees in relation to design, demolition and construction". The development shall not commence unless and until the measures required by the British Standard are implemented and all measures required shall remain in situ until the development has been completed.

Reason. To avoid the loss of trees which are of amenity value to the area pursuant to Policy EN1/2 - Townscape and Built Design, EN8/2 – Woodland and Tree Planting and JP-G7 Trees and Woodlands of the Development Plan.

- 14 No works to trees or shrubs shall occur between the 1st March and 31st August in any year unless a detailed bird nest survey by a suitably experienced ecologist has been carried out immediately prior to clearance.
Reason. In order to ensure that no harm is caused to a Protected Species pursuant to policies JP-G8: A Net Enhancement of Biodiversity and Geodiversity and EN6/3 - Features of Ecological Value of the Development Plan and National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 15 The development shall be carried out in accordance with the approved Biodiversity Report v2 updated 14th July 2025.
Reason. To secure the satisfactory development of the site and in the interests of visual amenity pursuant to Policies H2/2 - The Layout of New Residential Development, EN1/2 - Townscape and Built Design and EN8/2 - Woodland and Tree Planting of the Bury Unitary Development Plan and chapter 15 - Conserving and enhancing the natural environment of the NPPF.
- 16 Prior to occupation, electric vehicle charging points for 20% of the proposed parking spaces shall be provided and available for use. The electric vehicle charge points shall be 7KW as a minimum
Reason. In accordance with the NPPF, to encourage the uptake of ultra-low emission vehicles and ensure the development is sustainable. To safeguard residential amenity, public health and quality of life pursuant to Policy JP-S5: Clean Air of the Development Plan.
- 17 A precautionary inspection for bats shall be undertaken for trees T1, T2 and T6 by a bat-licenced ecologist (tree climbing qualified) immediately prior to tree felling. On the low chance that evidence of bats is identified, works to the tree in question shall be postponed until after appropriate surveys have been undertaken and all necessary licensing and mitigation is in place.
Reason. In order to ensure that no harm is caused to a Protected Species pursuant to policies JP-G8: A Net Enhancement of Biodiversity and Geodiversity and EN6/3 – Features of Ecological Value of the Development Plan and Section 11 of the National Planning Policy Framework.

Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015

The Local Planning Authority worked positively and proactively with the applicant to identify various solutions during pre-application discussions to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

The following policies of the Bury Unitary Development Plan, National and Regional Government were considered relevant:

EN1/2 EN1/2 - Townscape and Built Design
EN1/4 EN1/4 - Street Furniture
EN1/5 EN1/5 - Crime Prevention
EN6/3 EN6/3 - Features of Ecological Value

EN7/2	EN7/2 - Noise Pollution
EN7/5	EN7/5 - Waste Water Management
EN8/2	EN8/2 - Woodland and Tree Planting
HT2/4	HT2/4 - Car Parking and New Development
HT5/1	HT5/1 - Access For Those with Special Needs
CF1/1	CF1/1 - Location of New Community Facilities
SPD6	Supplementary Planning Document 6 - Alterations and Extensions to Residential Properties.
SPD11	Development Control Policy Guidance Note 11 - Parking Standards in Bury
NPPF	National Planning Policy Framework
JP-P1	Sustainable Places
JP-G8	A Net Enhancement of Biodiversity and Geodiversity
JP-G7	Trees and Woodland
JP-C8	Transport Requirements of New Development
JP-C5	Streets For All
JP-C6	Walking and Cycling
JP-P5	Education, Skills and Knowledge
JP-S4	Flood Risk and the Water Environment
JP-S5	Clean Air

This decision relates only to the Town and Country Planning Acts and does not include any consent or approval under any other enactment or under the Building Regulations. Any other consent or approval which is necessary must be obtained from the appropriate authority.

Applicant Plan Numbers:

MSE-BGH-02-XX-DR-A-2001 P1, MSE-BGH-02-XX-DR-A-2003 P2,
MSE-BGH-02-XX-DR-A-2002 P2, MSE-BGH-02-XX-DR-A-2004 P2, 2493_03 P2, 2493_02
P2, 249_01 P2, MSE-BGH-02-XX-DR-A-2103 P2, MSE-BGH-02-XX-DR-A-2102 P2

NOTES TO APPLICANT

2. Ground Investigations - Under the Coal Industry Act 1994 any intrusive activities, including initial site investigation boreholes, and/or any subsequent treatment of coal mine workings/coal mine entries for ground stability purposes require the prior written permission of The Coal Authority, since such activities can have serious public health and safety implications. Failure to obtain permission to enter or disturb our property will result in the potential for court action. In the event that you are proposing to undertake such work in the Forest of Dean local authority area our permission may not be required; it is recommended that you check with us prior to commencing any works. Application forms for Coal Authority permission and further guidance can be obtained from The Coal Authority's website
at:www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property
3. The applicant's attention is drawn to the need to consult the Department of Operations regarding the specification for and implementation of any required highway remedial and any required hoarding permits/Streetworks licences. The cost of the works will be the responsibility of the developer.
1. ***The local planning authority considers that approval of a BIODIVERSITY GAIN PLAN WILL NOT BE REQUIRED BEFORE DEVELOPMENT COMMENCES***

Biodiversity Net Gain

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is

deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority,
- and
- (b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Bury Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are listed below.

Based on the information available this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because one or more of the statutory exemptions or transitional arrangements in the list below is/are considered to apply.

Statutory exemptions and transitional arrangements in respect of the biodiversity gain condition.

1. The application for planning permission was made before 12 February 2024.
2. The planning permission relates to development to which section 73A of the Town and Country Planning Act 1990 (planning permission for development already carried out) applies.
3. The planning permission was granted on an application made under section 73 of the Town and Country Planning Act 1990 and
 - (i) the original planning permission to which the section 73 planning permission relates* was granted before 12 February 2024; or
 - (ii) the application for the original planning permission* to which the section 73 planning permission relates was made before 12 February 2024.
4. The permission which has been granted is for development which is exempt being:
 - 4.1 Development which is not 'major development' (within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015) where:
 - iv) the application for planning permission was made before 2 April 2024;
 - v) planning permission is granted which has effect before 2 April 2024; or
 - vi) planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 where the original permission to which the section 73 permission relates* was exempt by virtue of (i) or (ii).
 - 4.2 Development below the de minimis threshold, meaning development which:
 - iii) does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
 - iv) impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear

habitat (as defined in the statutory metric).

4.6 Development which is subject of a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015. A “householder application” means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

4.7 Development of a biodiversity gain site, meaning development which is undertaken solely or mainly for the purpose of fulfilling, in whole or in part, the Biodiversity Gain Planning condition which applies in relation to another development, (no account is to be taken of any facility for the public to access or to use the site for educational or recreational purposes, if that access or use is permitted without the payment of a fee).

4.8 Self and Custom Build Development, meaning development which:
iv) consists of no more than 9 dwellings;
v) is carried out on a site which has an area no larger than 0.5 hectares; and
vi) consists exclusively of dwellings which are self-build or custom housebuilding (as defined in section 1(A1) of the Self-build and Custom Housebuilding Act 2015).

4.5 Development forming part of, or ancillary to, the high speed railway transport network (High Speed 2) comprising connections between all or any of the places or parts of the transport network specified in section 1(2) of the High Speed Rail (Preparation) Act 2013.

* “original planning permission means the permission to which the section 73 planning permission relates” means a planning permission which is the first in a sequence of two or more planning permissions, where the second and any subsequent planning permissions are section 73 planning permissions.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content and approval of Biodiversity Gain Plans.

The Biodiversity Gain Plan must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The planning authority can only approve a Biodiversity Gain Plan if satisfied that the adverse effect of the development on the biodiversity of the irreplaceable habitat is minimised and appropriate arrangements have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits.

The effect of section 73D of the Town and Country Planning Act 1990

If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 (application to develop land without compliance with conditions previously attached) and a Biodiversity Gain Plan was approved in

relation to the previous planning permission ("the earlier Biodiversity Gain Plan") there are circumstances when the earlier Biodiversity Gain Plan is regarded as approved for the purpose of discharging the biodiversity gain condition subject to which the section 73 planning permission is granted.

Those circumstances are that the conditions subject to which the section 73 permission is granted:

- i) do not affect the post-development value of the onsite habitat as specified in the earlier Biodiversity Gain Plan, and
- ii) in the case of planning permission for a development where all or any part of the onsite habitat is irreplaceable habitat the conditions do not change the effect of the development on the biodiversity of that onsite habitat (including any arrangements made to compensate for any such effect) as specified in the earlier Biodiversity Gain Plan.
