PVC MEMBRANE

S.Flex PVC Single Ply Membrane is a stylish, robust range of roofing materials offering excellent welding characteristics, ease of installation, clean aesthetic finishes and a longevity that provides life expectancy in excess of 30 years.

Our membranes are manufactured on one of the latest and modern co-extrusion production lines. The latest equipment, extensive quality control, batch coding and optical monitoring systems ensure high quality as standard.

They offer a modern, Dark Grey finish (RAL 7015) to meet the current design trends.
