Subject: RE: Location: 72-74 Kings Road, Prestwich, Manchester, M25 OLN Application No. 70360

Hello Dean,

After consideration from the NET I have objections for the proposed planning application.

- Due to there being large groups at one time entering and exiting the synagogue this would cause disruption to the pre-existing property, as the entrance would be in very close proximity to the front bay window of joining property.
- Large groups of people inside the synagogue would result in an increase of noise pollution. A consequence of this is a high rate of noise transmission into the joining property, which will most likely result in future noise complaint.

Many Thanks,

Luca
