

View to the south west corner

As can be seen, nothing more can be removed from the site as preparation works for new build have been carried out, in readiness to receiving the appropriate planning approval.

However, our previous permission to construct 5 no. houses, which is still valid, did require us to provide 6 no. bat boxes which we intend to incorporate, and which are indicated on the current site layout plan.

Let me know if you need anything further.

Yours sincerely,

Gary Dearden
