Subject: RE: (P5860) RE: Initial Consultation on Planning Application 69388 13-21 Blackburn Street

Hi Dean

In respect to the updated cycling proposals, the improvements are welcomed and TfGM have no further comments in that regard.

With respect of the original TfGM response, the only outstanding matters relate to the trip work and mitigation suggestions, however, we would defer to the LHA to confirm if the trip work is acceptable and to the LA to determine whether the proposed mitigation suggestion is commensurate with the development.

Kind regards

Claire Smallman
