There is adequate natural light to all habitable rooms.

Is not in an area important for general or heavy industry, waste management, storage and distribution, or a mix of such uses.

(h) where the development involves the loss of services provided by—

(i) a registered nursery, or

(ii) a health centre maintained under section 2 or 3 of the National Health Service Act 2006, the impact on the local provision of the type of services lost; and

There would be no loss of such provisions.

(i) where the development meets the fire risk condition, the fire safety impacts on the intended occupants of the building.

The development does not consist of two or more dwellings whilst also exceeding seven storeys in height.
