Assessment

Given that the existing flat roof is in need of replacement, the new pitched roof may well enhance the visual appearance of the Rectory Green flats themselves, which have limited architectural merit.

Whilst the site is not within St Marys Conservation Area, a small part of the site is immediately adjacent to it. We would therefore need to ensure that the new roofs would not have a detrimental impact on the character of the conservation area – this would need to be demonstrated by a Heritage/Design Statement with reference to the NPPF and UDP Policies/ guidance and appropriate streetscape elevations.

We have not seen proposed elevations and ridge heights and so I cannot comment in detail on this element. Suffice it to say that if the roofs are relatively shallow pitched so as not to be visually overdominant and do not interfere with daylight to surrounding properties, they may be appropriate within the streetscape.

We would want to view the materials/texture/colour pallet to be used in the new roof structure prior to submission of any application.

24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

* 'owner' is a person with a freehold interest or leasehold interest with at least 7 years left to run. ** 'agricultural holding' has the meaning given by reference to the definition of 'agricultural tenant' in section 65(8) of the Act.
