PART 1 - Particulars of Application

Application Number: 68442

Date of Registration: 12/05/2022

Proposal:

Advertisement consent for installation of 1no. new BT Street Hub, incorporating 75" LCD advert screens plus the removal of associated BT Kiosks

Location:

Pavement outside 7-11 Market Street, Bury, BL9 0BL

PART 2 - Particulars of Decision

Bury Metropolitan Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 that permission has been **GRANTED** for the carrying out of the development referred to in Part 1 hereof in accordance with the application and plans submitted subject to the following conditions:-

Standard Conditions

1. No advertisement is to be displayed without the permission of the owner of the site or any other person with an interest in the site entitled to grant permission.
2. No advertisement shall be sited or displayed so as to -
 - (a) endanger persons using any highway, railway, waterway, dock, harbour or aerodrome (civil or military);
 - (b) obscure, or hinder the ready interpretation of, any traffic sign, railway signal or aid to navigation by water or air; or
 - (c) hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle.
3. Any advertisement displayed, and any site used for the display of advertisements, shall be maintained in a condition that does not impair the visual amenity of the site.
4. Any structure or hoarding erected or used principally for the purpose of displaying advertisements shall be maintained in a condition that does not endanger the public.
5. Where an advertisement is required under these Regulations to be removed, the site shall

be left in a condition that does not endanger the public or impair visual amenity.

Reason for standard conditions: In the interests of amenity and in accordance with the requirements of the Town and Country Planning (Control of Advertisements) (England) Regulations 2007.

Specific Conditions (If Applicable):

- 1
 - a) The luminance levels of the free standing sign hereby approved shall not exceed 2500 cd/m² during daylight hours or 600 cd/m² at any other time to accord with the recommendations of the ILP publication 'PLG05 The Brightness of Illuminated Advertisements' (2015).
 - b) The luminance level of the digital sign shall be controlled by a light sensor to adjust the screen brightness to reflect the ambient levels during the daytime and set to a maximum brightness of 600Cdm² during hours of darkness to accord with the recommendations of the ILP publication 'PLG05 The Brightness of Illuminated Advertisements' (2015). In the event of breakdown or malfunction the screen will automatically switch off.
 - c) "The advertisement shall display no special visual effects of any kind during the time that the advertisement is displayed or on transition between advertisements. The displayed image shall not include animated, flashing, scrolling, intermittent or video elements and the transition between successive images shall not include fading, swiping or other animated transition method.
 - d) The minimum display time for each piece of content on the digital display screens shall be 10 seconds.
 - e). The interval between each piece of content on the digital display screens shall take place over a period no greater than one second; the complete screen shall change with no visual effects (including swiping or other animated transition methods) between displays
 - f) Should a fault be detected or reported with the screen or advertisement, the screen will be programmed to automatically switch to a blank screen with black background.

Reason. To avoid undue distraction and visual intrusion within the street scene pursuant to Policy EN1/9 - Advertisements of the Bury Unitary Development Plan.
- 2
 - (a) No individual advertisements displayed on the LCD panels shall contain moving images, animation, video or full motion images or any images that resemble road signs, traffic lights or traffic signs.
 - (b) No individual advertisements shall be displayed for duration of less than 10 seconds.
 - (c) Controls shall be in place to ensure smooth uninterrupted transition of images displayed on the panel.
 - (d) The display panel shall be fitted with a light sensor, designed to adjust the brightness to changes in ambient light levels.
 - (e) A mechanism shall be in place so that if the installation breaks down, it defaults to a black screen to avoid any flashing error messages or pixilation.

Reason. To protect the amenity of adjoining occupiers pursuant to policy EN1/9 - Advertisements of the Bury Unitary Development Plan.
- 3
 - The Express Consent hereby granted expires 5 years from the date of this decision.

Reason. The development is of a temporary nature only pursuant to Bury Unitary Development Plan Policy EN1/9 - Advertisements.

The following policies of the Bury Unitary Development Plan were considered relevant:

EN1/9 EN1/9 - Advertisements
EN2/1 EN2/1 - Character of Conservation Areas
EN2/2 EN2/2 - Conservation Area Control
EN2/3 EN2/3 - Listed Buildings
NPPF National Planning Policy Framework

This permission relates only to that required under the Town and Country Planning (Control of Advertisements) (England) Regulations 2007 and does not include any consent or approval under any other enactment or under the Building Regulations. Any other consent or approval which is necessary must be obtained from the appropriate authority.

Applicant Plan Numbers:

001 Revision A, 002 Revision A, 003 Revision A, BT Street Hub Proposed Renders 2021, Street Hub Anti-Social Behaviour Plan Version 2 - April 2021, Street Hub Noise Management Plan Version 2 - October 2021

NOTES TO APPLICANT

1. It is brought to the attention of the applicant that the proposal affects existing adopted highway and that the necessary permit for the placement of such equipment on the adopted highway is highly likely to be refused by the Highway Authority.
2. The applicant's attention is drawn to the need to consult the Department for Operations regarding the need to agree the scope of and specification for the proposed highway remedial works, the need to obtain any necessary permission for the installation works, siting and servicing the proposed equipment on the highway and to the fact that the development should not take place until all statutory requirements have been completed. The applicant is advised that any associated temporary traffic management arrangements will need to be agreed with the Council's Highway Department.
