

Rochdale Borough Council raise no objection to the above consultation.

We consulted our own Highways team, Transport for Greater Manchester and National Highways. The following responses have been received:

Highways

The submitted Traffic Statement would seem to indicate that the application site if approved would generate 8 two way vehicle movements per day. Therefore from a Highways perspective the predicted amount of traffic generated by this development would create no highway capacity issues on Rochdale's adopted highway network.

We therefore raise no objection to this application but would ask that the site provides adequate wheel washing facilities for vehicles exiting the site.

National Highways - Offer no objection

TfGM – no comments at the time of writing.

Kind regards

Planning Officer
