Stat Class: HOUS

Proposal: Single storey rear extension

Location: 11 Lancaster Drive, Prestwich, Manchester, M25 0HZ

Description

The application relates to a two-storey semi-detached house on a residential street of similar properties. At the rear there is an existing two-storey extension with flat roof plus attached outdoor storage cupboard, and a raised patio approximately 30cm high. The attached neighbour at No.9 has an existing two-storey storey rear extension on the other side, while the unattached neighbour at No.11 has an existing two storey extension close to the shared boundary (plus roof work under construction at the time of the site visit). The rear boundary has extensive trees and shrubbery.

Planning permission is sought for a rear single-storey dining extension that would project out 2.1m (matching the existing kitchen extension), and have a monopitch roof. There would be a new kitchen window and patio doors overlooking decking (max. 30cm high), and the west facing garden.

Materials would match existing. The existing external store cupboard would be demolished. There would be a separation of 6.3m to the rear boundary, although there is no boundary treatment proposed.

NB: It should be noted that the original proposal included a porch extension which has since been removed to ensure there is adequate off-road parking space on the driveway.

Relevant Planning History

47386 - Split Decision

A. Single storey extension at front; single storey extension at rear - Approved 2007

B. Two storey extension at rear - Refused 2007

Publicity

Immediate neighbours notified by letter dated 04/05/2022 sent to 5 (five) neighbours. No representations were received.

Statutory/Non-Statutory Consultations

Highways - Does not wish to restrict the granting of planning permission.

HT2/4	Car Parking and New Development
SPD11	Parking Standards in Bury

Issues and Analysis

The following report includes analysis of the merits of the application against the relevant policies of both the National Planning Policy Framework (NPPF) and the adopted Bury Unitary Development Plan (UDP) together with other relevant material planning considerations. The policies of the UDP that have been used to assess this application are considered to be in accordance with the NPPF and as such are material planning considerations. For simplicity, just the UDP Policy will be referred to in the report, unless there is a particular matter to highlight arising from the NPPF where it would otherwise be specifically mentioned.

Equality Act 2010: All planning applications are considered in light of the Equality Act 2010 and associated Public Sector Equality Duty, where the Council is required to have due regard for:

The elimination of discrimination, harassment and victimisation;

The advancement of equality of opportunity between persons who share a relevant protected characteristic and person who do not share it;

The fostering of good relations between persons who share a relevant protected characteristic and person who do not share it; which applies to people from the protected equality groups.

Human Rights: All planning applications are considered against the provisions of the Human Rights Act 1998.

Under Article 6 the applicants (and those third parties who have made representations) have the right to a fair hearing and to this end full consideration will be given to their comments.

Article 8 and Protocol 1 of the First Article confer a right to respect private and family life and a right to the protection of property, ie peaceful enjoyment of one's possessions which could include a person's home, and other land and business assets.

In taking account of the Council policy as set out in the Bury Unitary Development Plan 1997 and all material planning considerations, it is concluded on balance that the rights conferred upon the applicant/ objectors/ residents/ other interested party by Article 8 and Article 1 of the First Protocol may be interfered with, since such interference is in accordance with the law and is justified in the public interest. Any restriction of these rights posed by refusal/ approval of the application is legitimate since it is proportionate to the wider benefits of such a decision, is based upon the merits of the proposal, and falls within the margin of discretion afforded to the Council under the Town & Country Planning Acts.

The Crime and Disorder Act 1998 imposes (without prejudice to any other obligation imposed on it) a duty upon the Council to exercise its functions and have due regard to the likely effect of the exercise of its functions on, and the need to do all that it reasonably can to prevent crime and disorder in its area. In so doing and on making planning decisions under the Town and Country Planning Acts, the material Planning considerations shall have due regard to the provisions of the Crime and Disorder Act 1998 and its implications in the exercise of its functions.

Visual amenity

UDP Policy H2/3 and SPD6 seeks to achieve a high standard of design that compliments the original building, does not have a detrimental impact on the character or appearance of neighbouring properties, and protects the general street scene.

In terms of scale, design, and appearance the proposed extension would be generally in-keeping with the existing house. Situated at the rear, the proposed dining extension would not be readily visible from the public arena, although its design and scale is considered to be appropriate for this property.

Materials would match existing. The existing tree and shrub planting along the rear boundary would further reduce the impact on the residents to the rear. In this respect the proposed extension complies with UDP Policy H2/3 and associated guidance in SPD6.

Residential amenity

UDP policy H2/3 and SPD6 seeks to reduce the impact of proposals on the residential amenity of neighbouring properties.

- The rear extension would project out under 3m and therefore assessment of the 45-degree rule is not required.
- In terms of overlooking and privacy to the rear, there are no new habitable windows proposed except for the ground floor dining extension, which would have a 6.3m separation distance to the rear boundary from the extension.
- The rear elevation would have a new kitchen window which is a non-habitable room.
- There are no new side windows proposed.
- In terms of the general prominence and impact on daylight the proposed ground floor dining extension would be to the north of No.9. The proposed extension would have little impact on either neighbour and any overshadowing would not be seriously excessive above and beyond the existing situation.
- The proposed decking would be a maximum of 30cm high, which would be considered permitted development.

The proposed extension would be acceptable and comply with UDP Policy H2/3 and associated guidance in SPD6.

Highways

The applicant has revised the plans to omit the originally proposed porch extension. As such the existing off-road parking space is not affected and will remain unchanged. Highways has stated that they do not wish to restrict the granting of planning permission

Conclusion

In consideration of the above, it is considered that the proposed development would be acceptable in terms of the design, and siting, of this development. As such, the proposed development is therefore considered to be acceptable and complies with UDP Policy H2/3 and associated guidance in SPD6.

Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015

The Local Planning Authority worked positively and proactively with the applicant to identify

DELEGATED REPORT

various solutions during the application process to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

Recommendation: Approve with Conditions

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.
- 2 This decision relates to drawings numbered ZT22-196-00, and ZT22-196-01 as submitted on 10/05/2022, and drawings numbered ZT22-196-03 Rev.A, and ZT22-196-04 Rev.A as submitted on 28/06/2022 and the development shall not be carried out except in accordance with the drawings hereby approved.
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design pursuant to the policies of the Bury Unitary Development Plan listed.
- 3 The external finishing materials for the proposal hereby approved shall match those of the existing building.
Reason. In the interests of visual amenity and to ensure a satisfactory development pursuant to Policy H2/3 - Extensions and Alterations of the Bury Unitary Development Plan and Supplementary Planning Document 6 - Alterations and Extensions to Residential Properties.
