Statement in accordance with Article 35(2) Town and Country Planning (Development

The Local Planning Authority worked positively and proactively with the applicant to identify various solutions during the application process to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

The following policies of the Bury Unitary Development Plan, National and Regional Government were considered relevant:

H2/3 H2/3 - Extensions and Alterations

SPD6 Supplementary Planning Document 6 - Alterations and Extensions to Residential Properties.

NOTES TO APPLICANT

1. The applicant's attention is drawn to the possible need to gain additional planning permission for the creation or replacement of a non-permeable hardstanding or driveway under the requirements of The Town and Country Planning (General Permitted Development) (Amendment) (No. 2) (England) Order 2008 (or any order revoking or re-enacting that Order). Planning permission will NOT be needed if a new or replacement hardstanding or driveway uses permeable (or porous) surfacing which allows water to drain through such as gravel, permeable concrete block paving or porous asphalt, or if the rainwater is directed to a lawn or border to drain naturally.
2. This consent has been granted on the understanding that the dining room window on the east side elevation of the extension is not a main habitable room window and as such the Council's normal aspect standards will not apply to any future application submitted on any neighbouring properties.
