

Parking

51 church street BL2 5RA

51 church street is currently a double fronted terrace but was originally two terraces. Parking for the properties on this side of the street are provided by on street spaces of which there are four outside 45-51 church street. There are approx. another 10-12 spaces across the road. These are usually free as all the terraces across the road from 51 in either direction have parking and garages at the rear so there are always spaces free.

At the back of these properties there is an unadopted road which is used by the occupants of 45-51 (mostly 47 and 51)

The provision that can be made to aid this application is to remove the conifers which sit at the bottom of the unadopted road. This will provide an additional parking space at the back. Also, we at 51 are going to move our bins back within the curtilage of 51 to provide more space.

Access to and from Ainsworth is well provided. There is a bus stop to Bury immediately outside 51 and another bus stop to Bolton on the other side of church street approx. 50 yards away. There are buses every half hour during the week and every hour at the weekends.

The photos on the next page will show the trees that we are going to move and the parking spaces at the front of church street.
