These were incorporated into the scheme and/or have been secured by planning condition. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

The following policies of the Bury Unitary Development Plan, National and Regional Government were considered relevant:

NOTES TO APPLICANT

1. The applicant's attention is drawn to the need to consult the Department of Operations regarding the specification for and implementation of the proposed

access alterations and associated footway remedial works. The cost of the works will be the responsibility of the developer.

2. The applicant's attention is drawn to the possible need to gain additional planning permission for the creation or replacement of a non-permeable hardstanding or driveway under the requirements of The Town and Country Planning (General Permitted Development) (Amendment) (No. 2) (England) Order 2008 (or any order revoking or re-enacting that Order). Planning permission will NOT be needed if a new or replacement hardstanding or driveway uses permeable (or porous) surfacing which allows water to drain through such as gravel, permeable concrete block paving or porous asphalt, or if the rainwater is directed to a lawn or border to drain naturally.
