

72938 – Prestwich Clough Farm, Clough Lane, Prestwich.

Demolition of existing dwelling and erection of 1 no. replacement dwelling.

No objection.

An objection to the demolition stating the dwelling was over 250 years old was not substantiated with any evidence.

An historic map regression reveals there has been a building on the site prior to the 1839 ordnance survey, but this building has changed in size, footprint and orientation from before 1839 up to the 1963 ordnance survey indicating that the building currently on site is not the original farmhouse. The current farmhouse is considered to date from no earlier than the beginning of the 20th century.
