Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- ☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

As the structure is wholly within the garden area, not affecting the adjacent public footway, the two main issues to address in the plans and supporting documentation is the impact the new structure would have on the character and openness of the Green Belt (and River Valley) and the impact it would have on the heritage setting of the grade two listed cottage (design, scale and appearance etc).

One important factor is how the structure is viewed from surrounding public vantage points, most obviously from the public footpath that runs east-west in front of the property and adjacent to the garden boundary. It would be useful in any assessment to show how the new structure would extend above the existing timber boundary fence – demonstrated by a 'streetscape' view from the south.

Generally, the proposed contemporary appearance, set away from the listed building at the back of the garden, would not present a problem visually. The cream render on the garden elevations is ok but I think the cladding on the boundary elevations could be a darker colour to appear visually less prominent.

With regard to the listing, the Conservation officer has assessed there would no harm caused by the proposal to the setting of the listed building and therefore its special architectural or historic interest would be preserved.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
