Material Storage Statement

Ref 26PA/MSS/1A

26 Parkstone Avenue Whitefield

Materials Storage

The prime area for materials storage would be the existing drive as shown on revised Dwg. No. 26PA/1D

If this proves insufficient then the area of the front garden to be used to extend the existing driveway would be available as the widening of the vehicle crossing and the extension to the driveway within the site would be one of last operations to be carried out in order to avoid any damage to the new surfacing.

Materials would be off-loaded into the site from delivery vehicles temporarily parked on the public highway
