

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

☒ Yes

☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

No irreplaceable habitat or Priority Habitat on site.

Remediation of the site will require removal of all vegetation.

☐ Off-site

☒ Both

4.7 Are any of your on-site enhancements considered ‘significant’?

Only answer this question if you’re planning to use off-site biodiversity units (250 words).

10% BNG cannot be secured on site.

Enhancement of off-site land will be used to secure biodiversity units needed and to satisfy the trading rules namely owing to unavoidable loss of trees.
