

Technical drawing showing a cross-section detail of a fascia. The drawing includes a large 'V' shape representing a letter, with dimensions 550 and 75. Annotations specify materials like stainless steel, powder coated aluminium, and white LED's. It also includes a note about the detail to be confirmed by the signage contractor.

Annotations and dimensions:

- Built up decoated stainless steel letters white face and 75 mm black returns and rear
- 550
- white LED's
- 75
- Allow for powder coated aluminium sheets bonded to existing timber/metal frame either side.
- Colour to match RAL 9005. **BY GENERAL CONTRACTOR**
- letters to be set within fascia
- Allow for powder coated aluminium sheets bonded to existing timber/metal frame either side.

DETAIL TO BE CONFIRM BY SIGNAGE CONTRACTOR & GENERAL CONTRACTOR

Technical drawing of a rectangular sign. The main rectangle has a width of 850 and a height of 1100. Inside this rectangle is a smaller black rectangle with a width of 600 and a height of 300. The word "VANILLA" is printed in white capital letters on the black rectangle. The distance from the top of the black rectangle to the top of the main rectangle is 130. The distance from the bottom of the black rectangle to the bottom of the main rectangle is 210. A note to the right of the drawing states: "Graphic in digitally printed or self-colour 3M vinyl face applied. Background finish to match black RAL9005. Letters finish to match white RAL9003". Below the main rectangle is a smaller rectangular detail with a width of 850 and a height of 90, featuring a small circular hole on the left side.

New vinyl decals to internal faces of glazed shopfront.
Decal to be opaque dusted crystal vinyl.

IMPORTANT NOTE:
Whilst every effort has been made to ensure the accuracy of the tender drawings, the contractor is to take all dimensions as provisional, and is to check all dimensions during their first site visit. Any discrepancies with the Tender Drawings are to be recorded and reported to the Project Manager without delay.

IMPORTANT NOTE:
All external fascias, paintwork, and signage to be compliant with class 0 surface spread of flame, in accordance with the building regulations.
