

68667 – Land between 18 & 24 Bradley Fold Road, Radcliffe

CONTAMINATED LAND – CONDITIONS.

The site was previously occupied by a row of garages. Surrounding land uses include residential and a church. Previous uses at the site have included open land, a small building and garden, and garages by 1974. The site is located within 250m of Delph Lane Landfill Site but is not in close proximity to any major surface watercourse. The site lies above glacial till deposits over the Lower Coal Measures Secondary A Aquifer.

Due to the site's use as garages, there is the potential for made ground and asbestos containing materials to be present and hydrocarbons from fuel spillages.

In line with the National Planning Policy Framework, the site is proposed for a sensitive end use we recommend that the following contaminated land conditions are placed on any grant of permission:

CLA1 - Contaminated Land Preliminary Risk Assessment, Site Investigation, Detailed Risk Assessment and Remediation Strategy.

CLA2 - Contaminated Land implementation of Remediation Strategy and Site Verification Report.

Reason: This is to secure the satisfactory development of the site in terms of human health, controlled waters and the wider environment and pursuant to the National Planning Policy Framework.

EV Charging provision – COMMENT

Bury Council has been identified by DEFRA as an area requiring to significantly improve air quality. The required measures to do this are currently under discussion. Due to this requirement, and the requirements of the new building regulations (The Building Regulations 2010, Approved Document S, Infrastructure for the charging of electric vehicles), please supply details of the proposed provision for electric vehicle charging.
