Proposal: Removal of existing garage at side and erection of new detached garage at side

Location: Thorn Top, Watling Street, Tottington, Bury, BL8 3QL

Description

The application relates to a detached bungalow located on Watling Street, Affetside, Bury. There is a large drive area to the front of the site and gardens to all sides. There is an existing dilapidated detached garage to the north side of the dwelling and also a conservatory, detached outbuilding and greenhouse to the rear. The site is located within the designated Green Belt and there are open fields to all sides.

The proposal is to remove the existing dilapidated detached garage and replace it with a slightly larger one. The new garage would measure 4500mm wide x 6075mm long and it would have a pitched roof. It would have brick walls and smooth concrete tiles to the roof.

Issues and Analysis

The following report includes analysis of the merits of the application against the relevant policies of both the National Planning Policy Framework (NPPF), the adopted Places for Everyone Joint Development Plan Document (PfE) and the saved policies within the

adopted Bury Unitary Development Plan (UDP), together with other relevant material planning considerations.

The policies of the UDP that have been used to assess this application are considered to be in accordance with the NPPF and as such are material planning considerations. For simplicity, just the UDP and PpE Policies will be referred to in the report, unless there is a particular matter to highlight arising from the NPPF where it would otherwise be specifically mentioned.

Equality Act 2010: All planning applications are considered in light of the Equality Act 2010 and associated Public Sector Equality Duty, where the Council is required to have due regard for:

The elimination of discrimination, harassment and victimisation;

The advancement of equality of opportunity between persons who share a relevant protected characteristic and person who do not share it;

The fostering of good relations between persons who share a relevant protected characteristic and person who do not share it; which applies to people from the protected equality groups.

Human Rights: All planning applications are considered against the provisions of the Human Rights Act 1998.

Under Article 6 the applicants (and those third parties who have made representations) have the right to a fair hearing and to this end full consideration will be given to their comments.

Article 8 and Protocol 1 of the First Article confer a right to respect private and family life and a right to the protection of property, ie peaceful enjoyment of one's possessions which could include a person's home, and other land and business assets.

In taking account of the Council policy as set out in the Bury Unitary Development Plan 1997 and all material planning considerations, it is concluded on balance that the rights conferred upon the applicant/ objectors/ residents/ other interested party by Article 8 and Article 1 of the First Protocol may be interfered with, since such interference is in accordance with the law and is justified in the public interest. Any restriction of these rights posed by refusal/ approval of the application is legitimate since it is proportionate to the wider benefits of such a decision, is based upon the merits of the proposal, and falls within the margin of discretion afforded to the Council under the Town & Country Planning Acts.

The Crime and Disorder Act 1998 imposes (without prejudice to any other obligation imposed on it) a duty upon the Council to exercise its functions and have due regard to the likely effect of the exercise of its functions on, and the need to do all that it reasonably can to prevent crime and disorder in its area. In so doing and on making planning decisions under the Town and Country Planning Acts, the material Planning considerations shall have due regard to the provisions of the Crime and Disorder Act 1998 and its implications in the exercise of its functions.

The main considerations of this application are the impact of the proposal on visual and residential amenity, and the impact of the proposal on the surrounding Green Belt..

Principle (Green Belt)

Paragraph 153 states that when considering any planning application, local planning authorities should ensure that substantial weight is given to any harm to the Green Belt, including harm to its openness. Inappropriate development is, by definition, harmful to the Green Belt and should not be approved except in very special circumstances. 'Very special circumstances' will not exist unless the potential harm to the Green Belt by reason of inappropriateness, and any other harm resulting from the proposal, is clearly outweighed by other considerations.

Paragraph 149 of the NPPF regards the construction of new buildings in the Green Belt as inappropriate development. Exceptions to this are:

- a) buildings for agriculture and forestry;
- b) the provision of appropriate facilities (in connection with the existing use of land or a change of use) for outdoor sport, outdoor recreation, cemeteries and burial grounds and allotments; as long as the facilities preserve the openness of the Green Belt and do not conflict with the purposes of including land within it;
- c) the extension or alteration of a building provided that it does not result in disproportionate additions over and above the size of the original building;
- d) the replacement of a building, provided the new building is in the same use and not materially larger than the one it replaces;
- e) limited infilling in villages;
- f) limited affordable housing for local community needs under policies set out in the development plan (including policies for rural exception sites); and
- g) limited infilling or the partial or complete redevelopment of previously developed land, whether redundant or in continuing use (excluding temporary buildings), which would:
 - not have a greater impact on the openness of the Green Belt than the existing development; or
 - not cause substantial harm to the openness of the Green Belt, where the development would re-use previously developed land and contribute to meeting an identified affordable housing need within the area of the local planning authority.
- h) Other forms of development provided they preserve its openness and do not conflict with the purposes of including land within it. These are:
 - i. mineral extraction;
 - ii. engineering operations;
 - iii. local transport infrastructure which can demonstrate a requirement for a Green Belt location;
 - iv. the re-use of buildings provided that the buildings are of permanent and substantial construction;
 - v. material changes in the use of land (such as changes of use for outdoor sport or recreation, or for cemeteries and burial grounds); and
 - vi. development, including buildings, brought forward under a Community Right to Build Order or Neighbourhood Development Order.

Policy OL1/2 - New Buildings in the Green Belt states that the construction of new buildings in the Green Belt is inappropriate unless it is for agriculture and forestry; essential facilities for outdoor sport and recreation; limited extension, alteration or replacement of existing dwellings provided that this would not result in disproportionate additions over and above the size of the original dwelling; and limited infilling in existing villages as set out under Policy OL1/3.

This is further supported by Supplementary Planning Document 8 - New Buildings and Associated Development in the Green Belt which state that extensions of existing dwellings should not result in disproportionate additions over and above the size of the original dwelling. To assist in what can be considered to be disproportionate SPD 8 considers additions of up to a third (33%). However, that is not to say something larger, or smaller than 33%, would not be supported as each case is considered on its own merits.

The Green Belt Statement submitted with the application, concludes that the proposal would result in additions of over a third and as such as set out 3 cases for VSC.

The agent has advised that as the property has been previously extended the additional extensions would equate to more than the usual 33% volume increase recommended in SPD 8. However, the new garage would be single storey only and it would be built in a similar position to the existing garage. It would not project forward of the main dwelling.

In terms of the impact on the openness of the surrounding Green Belt the slightly larger

garage would be a relatively small addition to the existing property which is set within a large site. As such it is considered that the proposed garage would not be considered to be a disproportionate addition to the existing site and would therefore not have a significant detrimental impact on the openness of the Green Belt complying with the policy considerations set out above.

Visual Amenity -

SPD 6 and UDP Policy H2/3 seek to achieve a high standard of design that compliments the original building, and does not have a detrimental impact on the character and appearance of neighbouring properties and the general street scene.

The proposed garage would be built in a similar position to the existing garage and it would be built with materials and a design that would be considered to be in keeping with the existing building.

Given the above the proposal conforms to Bury UDP Policy H2/3 - Extensions and Alterations and the guidance in Supplementary Planning Document 6 – Alterations and Extensions to Residential Properties in terms of visual amenity, and Places for Everyone Joint Development Plan listed.

Residential Amenity -

- There are no residential properties to the north of the site, adjacent to where the garage would be built.
- The remaining drive length from the front of the garage to the highway in front would be acceptable in terms of SPD 6.
- The drawings show that all of the development would be within the residential curtilage.

The proposal conforms to UDP Policy H2/3 - Extensions and Alterations and the requirements of Supplementary Planning Document 6 – Alterations and Extensions to Residential Properties in terms of separation distance to the surrounding properties.

Parking -

The proposal would not increase the number of bedrooms therefore SPD 11 Parking Standards need not be considered. The parking arrangements would remain as existing where there is parking to the drive way at the front of the site and the new garage.

Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively and positively to issue the decision without delay. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

Recommendation: Approve with Conditions

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.
- 2 This decision relates to drawings numbered 1, 2, 3, 4 and 5 and the development shall not be carried out except in accordance with the drawings hereby approved.
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design

DELEGATED REPORT

pursuant to the policies of the Bury UDP Policy H2/3 - Extensions and Alterations and the guidance in Supplementary Planning Document 6 – Alterations and Extensions to Residential Properties in terms of visual amenity, and Places for Everyone Joint Development Plan listed.

- 3 The external finishing materials for the proposal hereby approved shall match those of the existing building.

Reason. In the interests of visual amenity and to ensure a satisfactory development pursuant to Policy H2/3 - Extensions and Alterations of the Bury Unitary Development Plan and Supplementary Planning Document 6 - Alterations and Extensions to Residential Properties.

- 4 Facilities for the storage of construction materials shall be provided within the curtilage of the site. The measures shall be retained and facilities used for the intended purpose for the duration of the construction period.

Reason. To maintain the integrity of the adopted highway and ensure adequate off street materials storage arrangements for the duration of the construction period, in the interests of highway safety pursuant to UDP Policy H2/3 Extensions and Alterations.
