

CONTAMINATED LAND & AIR QUALITY – No Comment

The site has not previously been developed. It is situated within 250m of a registered landfill and the Worsley Delf Rock Sandstone Secondary A Aquifer overlain by the Glaciofluvial Deposits and Sand and Gravel. The site is situated adjacent to a surface watercourse.

The proposal is to extend garden/residential curtilage and for the erection of detached garage with new vehicular access/driveway.

The Environment Section has assessed the application and has no comments to make regarding contaminated land or air quality.

Operations – Environment Section.
