

C3

600mm wide
pedestrian paving

800

4800

5000

The proposed works involve adjusting the existing dropped kerb to create a new 5000mm wide dropped kerb suitable for a double crossing. This will require the removal of the current kerb alignment and the installation of a widened, level-access dropped kerb to accommodate the increased width, ensuring smooth vehicular access while maintaining compliance with highway and pedestrian safety standards.
