

Proposed Trees

A variety of tree species will be located within the space including native species for enhanced biodiversity. Trees will provide vertical interest to give the social space a more human scale and improved microclimate. The trees will help to reduce the impact of the surrounding tall building on the space and create a less intimidating space. Care will be taken to ensure trees generally retain a clear stem height of 2m to allow sight lines and visual security within the space. Some isolated trees may be specified as multi-stem to enhance the diversity of the space.

May include, but not limited to:

- Serviceberry (*Amelanchier lamarckii*)
- Field Maple (*Acer campestre*)
- Japanese Flowering Crabapple (*Malus 'Red Sentinel'*)
- Silver Birch (*Betula pendula*)
- Mountain Ash (*Sorbus aucuparia*)
- Scots Pine (*Pinus sylvestris*)

Species Rich Lawn

A species diverse lawn which can be maintained as standard monoculture lawn has been designed within the soft social space. Introducing a variety of species greatly enhances the bioiversity of the lawn, while ensuring it is accessible and functional for use. Seating areas are designed within this lawn to give a range of seating opportunities throughout the space.

To include, but not limited to:

- Betony (*Stachys officinalis*)
- Birdfoot Trefoil (*Lotus corniculatus*)
- Chewing's Fescue (*Festuca rubra* subsp. *commutata*)
- Common Meadow grass (*Poa pratensis*)
- Daisy (*Bellis perennis*)
- Slender creeping red fescue (*Festuca rubra trichophylla*)
- Flowering Dogwood (*Cornus kousa*)

Planting Type 3

Native and ornamental plants to raingardens. Designed to ensure the plants are suited to occasional waterlogging. Planting should provide raingarden functionality while also providing ecological value and ornamental benefit to the space.

To include, but not limited to:

- Aster spp (Aster)
- Carex pendula (Pendulous Sedge)
- Dryopteris dilatata (Broad Buckler Fern)
- Dryopteris felix-mas (Male Fern)
- Geranium sanguineum
- Hakonechloa macra
- Molinia 'Breeze'
- Nepeta nervosa
- Panicum virgatum (Switch Grass)
- Pennisetum setaceum
- Rudbeckia birta (Black Eyed Susan)
- Salvia greggii 'Royal Bumble'

Planting Type 4

Large bold swathes of ornamental and native grasses, shrubs and perennials giving a textural, modern, architectural aesthetic. Planting should provide distinctive focal elements for all. Creates a calming, high quality environment which enhances the existing and proposed architecture.

To include, but not limited to:

- Bowles' Golden Sedge (*Carex elata* 'Aurea')
- Echinacea purpurea (Coneflower)
- Fountain Grass 'Feathertop' (*Pennisetum villosum*)
- Fountain Grass 'Red Buttons' (*Pennisetum thunbergii*)
- Hemerocallis (day lily)
- Pennisetum setaceum (Fountain Grass)
- Pheasant's Tail Grass (*Anemanthele lessoniana*)
- Rudbeckia 'Goldstrum' (Rudbeckia)
- Stipa tenuissima (Mexican Feather Grass)
- Golden Shield Fern (*Dryopteris affinis*)
- Hosta - mixed low levels varieties
- Male Fern (*Dryopteris felix-mas*)
