

NOTICE OF PLANNING PERMISSION

Town and Country Planning Act 1990 Town and Country Planning (Development Management Procedure) (England) Order 2015

To:

Mr Monty Dobney
Seed Architects
Parsonage Chambers
3 Parsonage
Manchester
M3 2HW

On Behalf Of:

Mr Ahmed Al Jundy
24 Brookfield
Prestwich
Manchester
M25 1EL

PART 1 - Particulars of Application

Application Number: 67953

Date of Registration: 24/05/2022

Proposal:

Demolition of existing link detached dwelling
and erection of 2 no. semi-detached
dwellings

Location:

24 Brookfield, Prestwich, Manchester, M25
1EL

PART 2 - Particulars of Decision

Bury Metropolitan Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 that permission has been **GRANTED** for the carrying out of the development referred to in Part 1 hereof in accordance with the application and plans submitted subject to the following conditions:-

- 1 The development must be begun not later than three years beginning with the date of this permission.
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.
- 2 This decision relates to drawings - Site Location Plan (Dwg no. 00-000)
Proposed Site Layout Plan (Dwg no. 01_000_B Rev. A)
Proposed Site Plan (Dwg no. 01_001_B Rev. A)
Proposed Ground Floor (Dwg no. 01_002_B Rev. B)
Proposed First Floor Plan (Dwg no. 01_003_B Rev. B)
Proposed Second Floor Plan (Dwg no. 01_004_B Rev. B)
Proposed Elevations (Dwg no. 01_006_B Rev. B)
Proposed Elevations (Dwg no. 01_007_B Rev. B)
Proposed Section (Dwg no. 01_008_B Rev. B)
Arboricultural Impact Assessment (Dwg No. Arbtech AIA 01)
Tree Protection Plan (Dwg No. Arbtech TPP 01)
and the development shall not be carried out except in accordance with the drawings hereby approved.
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design pursuant to the policies of the Bury Unitary Development Plan listed.
- 3 No development shall commence unless and until:-

- A contaminated land Preliminary Risk Assessment report to assess the actual/potential contamination and/or ground gas/landfill gas risks at the site shall be submitted to, and approved in writing by, the Local Planning Authority;
- Where actual/potential contamination and/or ground gas/landfill gas risks have been identified, detailed site investigation and suitable risk assessment shall be submitted to, and approved in writing by the Local Planning Authority;
- Where remediation/protection measures is/are required, a detailed Remediation Strategy shall be submitted to, and approved in writing by, the Local Planning Authority.

Reason. The scheme does not provide full details of the actual contamination and subsequent remediation, which is required to secure the satisfactory development of the site in terms of human health, controlled waters, ground gas and the wider environment and pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.

- 4 Following the provisions of Condition 3 of this planning permission, where remediation is required, the approved Remediation Strategy must be carried out to the satisfaction of the Local Planning Authority within agreed timescales; and A Site Verification Report detailing the actions taken and conclusions at each stage of the remediation works, including substantiating evidence, shall be submitted to and approved in writing by the Local Planning Authority prior to the development being brought into use.

Reason. To secure the satisfactory development of the site in terms of human health, controlled waters and the wider environment and pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.

- 5 The development hereby approved shall be carried out in accordance with a surface water drainage scheme which shall be based on the hierarchy of drainage options in the National Planning Practice Guidance and be designed in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015). This must include provision of potential SuDS options for surface water drainage, which shall be drained on a separate system to foul sewage. The drainage scheme shall be implemented prior to first occupation of any dwelling and thereafter maintained.

Reason. To promote sustainable development and reduce flood risk pursuant to Unitary Development Plan Policies EN5/1- New Development and Flood Risk , EN7/3 - Water Pollution and EN7/5 - Waste Water Management and Section 14 - Meeting the challenge of climate change, flooding and coastal change of the National Planning Policy Framework.

- 6 The external materials used in the construction of the development hereby approved shall be as detailed on drawing 'Proposed Elevations' (Drawing No. 01_006_B).

Reason. In the interests of visual amenity and to ensure a satisfactory development pursuant to UDP Policy EN1/2 - Townscape and Built Design.

- 7 No development shall commence, including demolition, unless and until a 'Construction Traffic Management Plan' (CTMP), has been submitted to and agreed in writing with the Local Planning Authority and shall confirm/provide the following:

- Photographic dilapidation survey of the footways and carriageways abutting the site in the event that subsequent remedial works are required following demolition works, construction of the development/boundary treatment and as a result of any statutory undertakers connections to the new dwellings;
- Access routes for demolition/construction traffic from the adopted highway;

- Site hoardings (if proposed) clear of the adopted highway;
- Hours of operation, confirmation of demolition, delivery and construction vehicle sizes that can be accommodated on the residential estate roads that serve the site and number of vehicle movements;
- A scheme of appropriate warning/construction traffic signage in the vicinity of the site and its access;
- Parking on site (or on land under the applicant's control) of operatives' and demolition/construction vehicles together with storage on site of demolition/construction materials, including any requisite phasing of the development to accommodate this;
- Measures to ensure that all mud and other loose materials are not spread onto the adjacent adopted highways as a result of the groundworks operations or carried on the wheels and chassis of any vehicles leaving the site and measures to minimise dust nuisance caused by the operations.

The approved plan shall be adhered to throughout the demolition and construction periods and the measures shall be retained and facilities used for the intended purpose for the duration of both periods. The areas identified shall not be used for any other purposes other than the parking of vehicles and storage of demolition/construction materials. All highway remedial works identified as a result of the dilapidation survey shall be implemented to the written satisfaction of the Local Planning Authority prior to the development hereby approved being occupied.

Reason. - To maintain the integrity of the adopted highway, mitigate the impact of the construction traffic generated by the proposed development on the adjacent adopted highways, ensure adequate off street car parking provision and materials storage arrangements for the duration of the construction period and ensure that the adopted highways are kept free of deposited material from the ground works operations, in the interests of highway safety, pursuant to Policy EN1/2 of the Bury Unitary Development Plan.

- 8 The development hereby approved shall not be first occupied unless and until the access, car parking and driveway alterations and bin storage arrangements shown indicatively on approved plan reference 01_001_B Revision A, incorporating the reconstruction of the footway abutting the site to a scope and specification to be agreed, repositioned footway crossing to serve the shared access arrangements, provision of edgings at the back of the footway to demarcate the limits of the adopted highway, new driveway in a porous/permeable material and/or measures to prevent the discharge of surface water onto the adopted highway and all associated highway remedial works required to reinstate the highway to its former condition prior to commencement of the development, have been implemented in full accordance with the approved details.

Reason. - To ensure good highway design and maintain the integrity of the adopted highway in the interests of highway safety, pursuant to Policy EN1/2 of the Bury Unitary Development Plan.

- 9 The garage to both dwellings shall be fitted with a roller shutter door or a similar approved type which does not project outwards at any time during or after operation and shall thereafter be maintained. Furthermore, the garage at both dwellings shall be used as a private garage and/or garden store only and shall not at any time be used to provide living accommodation or for any purpose which would preclude its use for the parking of a motor vehicle.

Reason. To enable a vehicle to stand clear of the highway whilst the garage doors are opened and to allow adequate space to maintain a vehicle clear of the highway and to enable two off-street parking spaces in the interests of road safety, pursuant to Policy EN1/2 of the Bury Unitary Development Plan.

- 10 Each dwelling hereby approved shall be provided with 1 electric vehicle (EV) charge point (minimum 7kW*) prior to its occupation.
*Mode 3, 7kW (32A) single phase, or 22kW (32A) three phase, and for 50kW Mode 4 rapid charging may be required. British Standard BS EN 61851-1:2019 to be used.
Reason. To encourage the uptake of ultra-low emission vehicles and ensure the development is sustainable. To safeguard residential amenity, public health and quality of life pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 11 No works to trees or shrubs shall occur between the 1st March and 31st August in any year unless a detailed bird nest survey by a suitably experienced ecologist has been carried out immediately prior to clearance.
Reason. In order to ensure that no harm is caused to a Protected Species pursuant to policies EN6 - Conservation of the Natural Environment and EN6/3 - Features of Ecological Value of the Bury Unitary Development Plan and National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.
- 12 A landscaping scheme shall be submitted to, and approved by the Local Planning Authority prior to the commencement of the development. The contents of the plan should include native tree and shrub planting and the provision of bat bricks/tubes within the new development and bat and bird boxes. The approved scheme shall thereafter be implemented not later than 12 months from the date the building(s) is first occupied or within the first available tree planting season,; and any trees or shrubs removed, dying or becoming severely damaged or becoming severely diseased within five years of planting shall be replaced by trees or shrubs of a similar size or species to those originally required to be planted.
Reason. To secure the satisfactory development of the site and in the interests of visual amenity pursuant to Policies H2/2 - The Layout of New Residential Development, EN1/2 - Townscape and Built Design and EN8/2 - Woodland and Tree Planting of the Bury Unitary Development Plan and chapter 15 - Conserving and enhancing the natural environment of the NPPF.
- 13 All trees to be retained on site shall be protected in accordance with BS 5837:2012 "Trees in relation to design, demolition and construction". The development shall not commence unless and until the measures required by the British Standard are implemented and all measures required shall remain in situ until the development has been completed.
Reason. To avoid the loss of trees which are of amenity value to the area pursuant to Policy EN1/2 - Townscape and Built Design and EN8/2 – Woodland and Tree Planting of the Bury Unitary Development Plan.
- 14 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015, (or any Order revoking or re-enacting that Order with or without modification), no development within Class A, AA and B of Part 1 of Schedule 2 shall be carried out unless permission is granted by the Local Planning Authority.
Reason - In order to protect the amenity of neighbouring properties and the appearance of the area in general, pursuant to Policy EN1/2 of the Bury Unitary Development Plan.

Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015

The Local Planning Authority worked positively and proactively with the applicant to identify various solutions during the application process to ensure that the proposal comprised

sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

The following policies of the Bury Unitary Development Plan, National and Regional Government were considered relevant:

H1/2	H1/2 - Further Housing Development
H2/1	H2/1 - The Form of New Residential Development
H2/2	H2/2 - The Layout of New Residential Development
EN1/2	EN1/2 - Townscape and Built Design
EN5/1	EN5/1 - New Development and Flood Risk
EN6	EN6 - Conservation of the Natural Environment
EN6/3	EN6/3 - Features of Ecological Value
HT2/4	HT2/4 - Car Parking and New Development
HT6/2	HT6/2 - Pedestrian/Vehicular Conflict
SPD11	Development Control Policy Guidance Note 11 - Parking Standards in Bury
NPPF	National Planning Policy Framework

This decision relates only to the Town and Country Planning Acts and does not include any consent or approval under any other enactment or under the Building Regulations. Any other consent or approval which is necessary must be obtained from the appropriate authority.

Applicant Plan Numbers:

Site Location Plan (Dwg no. 00-000)
Proposed Site Layout Plan (Dwg no. 01_000_B Rev. A)
Proposed Site Plan (Dwg no. 01_001_B Rev. A)
Proposed Ground Floor (Dwg no. 01_002_B Rev. B)
Proposed First Floor Plan (Dwg no. 01_003_B Rev. B)
Proposed Second Floor Plan (Dwg no. 01_004_B Rev. B)
Proposed Elevations (Dwg no. 01_006_B Rev. B)
Proposed Elevations (Dwg no. 01_007_B Rev. B)
Proposed Section (Dwg no. 01_008_B Rev. B)
Arboricultural Impact Assessment (Dwg No. Arbtech AIA 01)
Tree Protection Plan (Dwg No. Arbtech TPP 01)

NOTES TO APPLICANT

1. The applicant's attention is drawn to the need to consult the Department of Operations regarding the specification for and implementation of the proposed accommodation and footway remedial works. The cost of the works will be the responsibility of the developer.
2. The applicant's attention is drawn to Section 80 of the Building Act 1984 and the need to give six weeks prior written notice to the Department for Business Growth and Infrastructure detailing any proposed demolition works in connection with the proposed development.
3. The Council currently operates a curtilage system of refuse collection. The applicant is advised to liaise with Waste Management, Bradley Fold Depot on 0161 253 6621/7010, regarding the operation of this system.
4. United Utilities advice

The applicant can discuss any of the above with Developer Engineer, Shoaib Tauqeer, by email at wastewaterdeveloperservices@uuplc.co.uk.

Please note, United Utilities is not responsible for advising on rates of discharge to the local watercourse system. This is a matter for discussion with the Lead Local Flood Authority and / or the Environment Agency (if the watercourse is classified as main river).

If the applicant intends to offer wastewater assets forward for adoption by United Utilities, their proposed detailed design will be subject to a technical appraisal by our Developer Services team and must meet the requirements outlined in 'Sewers for Adoption and United Utilities' Asset Standards'. This is important as drainage design can be a key determining factor of site levels and layout.

Acceptance of a drainage strategy does not infer that a detailed drainage design will meet the requirements for a successful adoption application. We strongly recommend that no construction commences until the detailed drainage design, has been assessed and accepted in writing by United Utilities. Any work carried out prior to the technical assessment being approved is done entirely at the developer's own risk and could be subject to change.

WATER AND WASTEWATER SERVICES

If the applicant intends to receive water and/or wastewater services from United Utilities, they should visit our website or contact the Developer Services team for advice. This includes seeking confirmation of the required metering arrangements for the proposed development.

If the proposed development site benefits from existing water and wastewater connections, the applicant should not assume that the arrangements will be suitable for the new proposal.

In some circumstances we may require a compulsory meter is fitted. For detailed guidance on whether the development will require a compulsory meter please visit <https://www.unitedutilities.com/my-account/your-bill/our-household-charges-20212022/> and go to section 7.7 for compulsory metering.

If reinforcement of the water network is required to meet potential demand, this could be a significant project and the design and construction period should be accounted for.

To avoid any unnecessary costs and delays being incurred by the applicant or any subsequent developer, we strongly recommend the applicant seeks advice regarding water and wastewater services, and metering arrangements, at the earliest opportunity. Please see 'Contacts' section below.

UNITED UTILITIES PROPERTY, ASSETS AND INFRASTRUCTURE

United Utilities will not allow building over or in close proximity to a water main.

United Utilities may not allow building over or in close proximity to a public sewer.

It is the applicant's responsibility to demonstrate the exact relationship between any United Utilities' assets and the proposed development. Developer's should investigate the existence and the precise location of water and wastewater pipelines as soon as possible as this could significantly impact the preferred site layout and/or diversion of the asset(s) may be required.

Where United Utilities' assets cross the proposed red line boundary, developers must contact our Developer Services team prior to commencing any works on site,

including trial holes, groundworks or demolition.

Unless there is specific provision within the title of the property or an associated easement, any necessary disconnection or diversion of assets to accommodate development, will be at the applicant/developer's expense. In some circumstances, usually related to the size and nature of the assets impacted by proposals, developers may discover the cost of diversion is prohibitive in the context of their development scheme.

Where United Utilities' assets exist, the level of cover to United Utilities pipelines and apparatus must not be compromised either during or after construction and there should be no additional load bearing capacity on pipelines without prior agreement from United Utilities. This would include earth movement and the transport and position of construction equipment and vehicles.

Consideration should also be applied to United Utilities assets which may be located outside the applicant's red line boundary. Any construction activities in the vicinity of our assets must comply with our 'Standard Conditions for Works Adjacent to Pipelines' or national building standards.

CONTACTS

Website

For detailed guidance on water and wastewater services, including application forms and the opportunity to talk to the Developer Services team using the 'Live Chat' function, please visit:

<http://www.unitedutilities.com/builders-developers.aspx>

Email

For advice on water and wastewater services or to discuss proposals near to pipelines, email the Developer Services team as follows:

Water mains and water supply, including metering -

DeveloperServicesWater@uuplc.co.uk

Public sewers and drainage - WastewaterDeveloperServices@uuplc.co.uk

Telephone - 0345 072 6067

Property Searches (for asset maps):

A number of providers offer a paid for mapping service including United Utilities. For more information, or to purchase a sewer and water plan from United Utilities, please visit <https://www.unitedutilities.com/property-searches/>

Water and sewer records can be viewed for free at our Warrington Head Office by calling 0370 751 0101. Appointments must be made in advance. Public sewer records can be viewed at local authority offices. Arrangements should be made directly with the local authority.

The position of the underground apparatus shown on asset maps is approximate only and is given in accordance with the best information currently available. United Utilities Water will not accept liability for any loss or damage caused by the actual position being different from those shown on the map.
