

BURY MARKET MARKET CANOPY

INTRO

PREFACE

Please note that drawings which appear in this document may not be to scale, please reference the drawings appended to this submission for to scale drawings.

CONTENTS

VOLUME ONE

1.0 INTRODUCTION

- 1.1 Introduction
- 1.2 Client and Consultant Team
- 1.3 Introduction
- 1.4 Vision and Aspiration
- 1.5 Application Area

2.0 SITE AND CONTEXT APPRAISAL

- 2.1 Site Location
- 2.2 Historic Patterns of Development
- 2.3 The Existing Market
- 2.4 Physical & Urban Context
- 2.5 Bury Market Before
- 2.6 Heritage and Conservation
- 2.7 Bury Market Now
- 2.8 Demographics
- 2.9 Existing Green Space
- 2.10 Transport Connections and Movement
- 2.11 Site Opportunities
- 2.12 Site Constraints

3.0 PLANNING CONTEXT

- 3.1 Understanding the Masterplan
- 3.2 Planning Statement & Context
- 3.3 Planning Context Continued
- -
- 3.7 Planning Context Continued

4.0 CONSULTATION

- 4.1 Consultation Timeline
- 4.2 Public Consultation
- 4.3 Public Consultation Continued

VOLUME TWO

5.0 MASTERPLAN

- 5.1 Vision for Bury Market
- 5.2 Landscape Masterplan
- 5.3 Landscape Principles

6.0 SITE ACCESSIBILITY

- 6.1 Pedestrian Access
- 6.2 Access for Cyclists
- 6.3 Access for Cars and Emergency Vehicles
- 6.4 Servicing Access

VOLUME THREE

7.0 MARKET CANOPY

- 7.1 Existing Users
- 7.2 Existing Conditions & Parameters
- 7.3 Future Proofing
- 7.4 Design Development
- 7.5 Demolition
- 7.6 Proposed Plans
- 7.7 Elevations
- 7.8 Visualisations

VOLUME FOUR

8.0 FLEXIHALL

- 8.1 Future Users
- 8.2 Existing Site
- 8.3 Demolition Plan
- 8.4 Demolition Diagram
- 8.5 Demolition Massing
- 8.6 Design Concept
- 8.7 Strategic Drivers
- 8.8 Design Development

9.0 DESIGN AND ACCESS STATEMENT

- 9.1 Design and Access
- 9.2 Design and Access Continued
- 9.3 Refuse Collection Flexihall

10.0 USE AND DESIGN

- 10.1 Proposed Uses
- 10.2 Adaptable Spaces
- 10.3 Ground Floor Use
- 10.4 Layout Diagrams
- 10.5 First Floor Use
- 10.6 Proposed Internal Elevations
- 10.7 Proposed Elevations
- 10.8 Proposed Elevations
- 10.9 Material Study
- 10.10 External Finishes
- 10.11 Visuals

MARKET CANOPY

7.0 MARKET CANOPY

- 7.1 Existing Users
- 7.2 Existing Conditions & Parameters
- 7.3 Future Proofing
- 7.4 Demolition
- 7.5 Design Development
- 7.6 Proposed Plans
- 7.7 Elevations - Roof One
- 7.8 Elevations - Roof Two

EXISTING USERS

Historically, Bury Market has always served as a market town and its audience has remained consistent throughout the longevity of its life span

Bury Market provides much of its retail outlets through its open-air market, boasting 158 leasehold units and 206 daily licensed units, offering a large range of products to a large range of customers.

MARKET TRANSITION...

EXISTING CONDITIONS & PARAMETERS

The existing market forms part of Bury's western retail district, which in fact dominates much of the town centre's urban footprint. As such, the market is subdivided into several sections, each of which with their own unique architectural (postmodern) character. The east of the plan constitutes the market hall (not part of this development) small number of external units of which make up the bulk of the leasehold shop units.

The open market's structural grid is essential to its functionality, to which all interventions are considered and look to preserve / enhance the market and use the guided parameters of the site. All existing routes throughout the market are retained to ensure the existing function and access to the trade units is maintained. Motor vehicles retain needed usage to the site in order to provide deliveries of produce to supply the market appropriately.

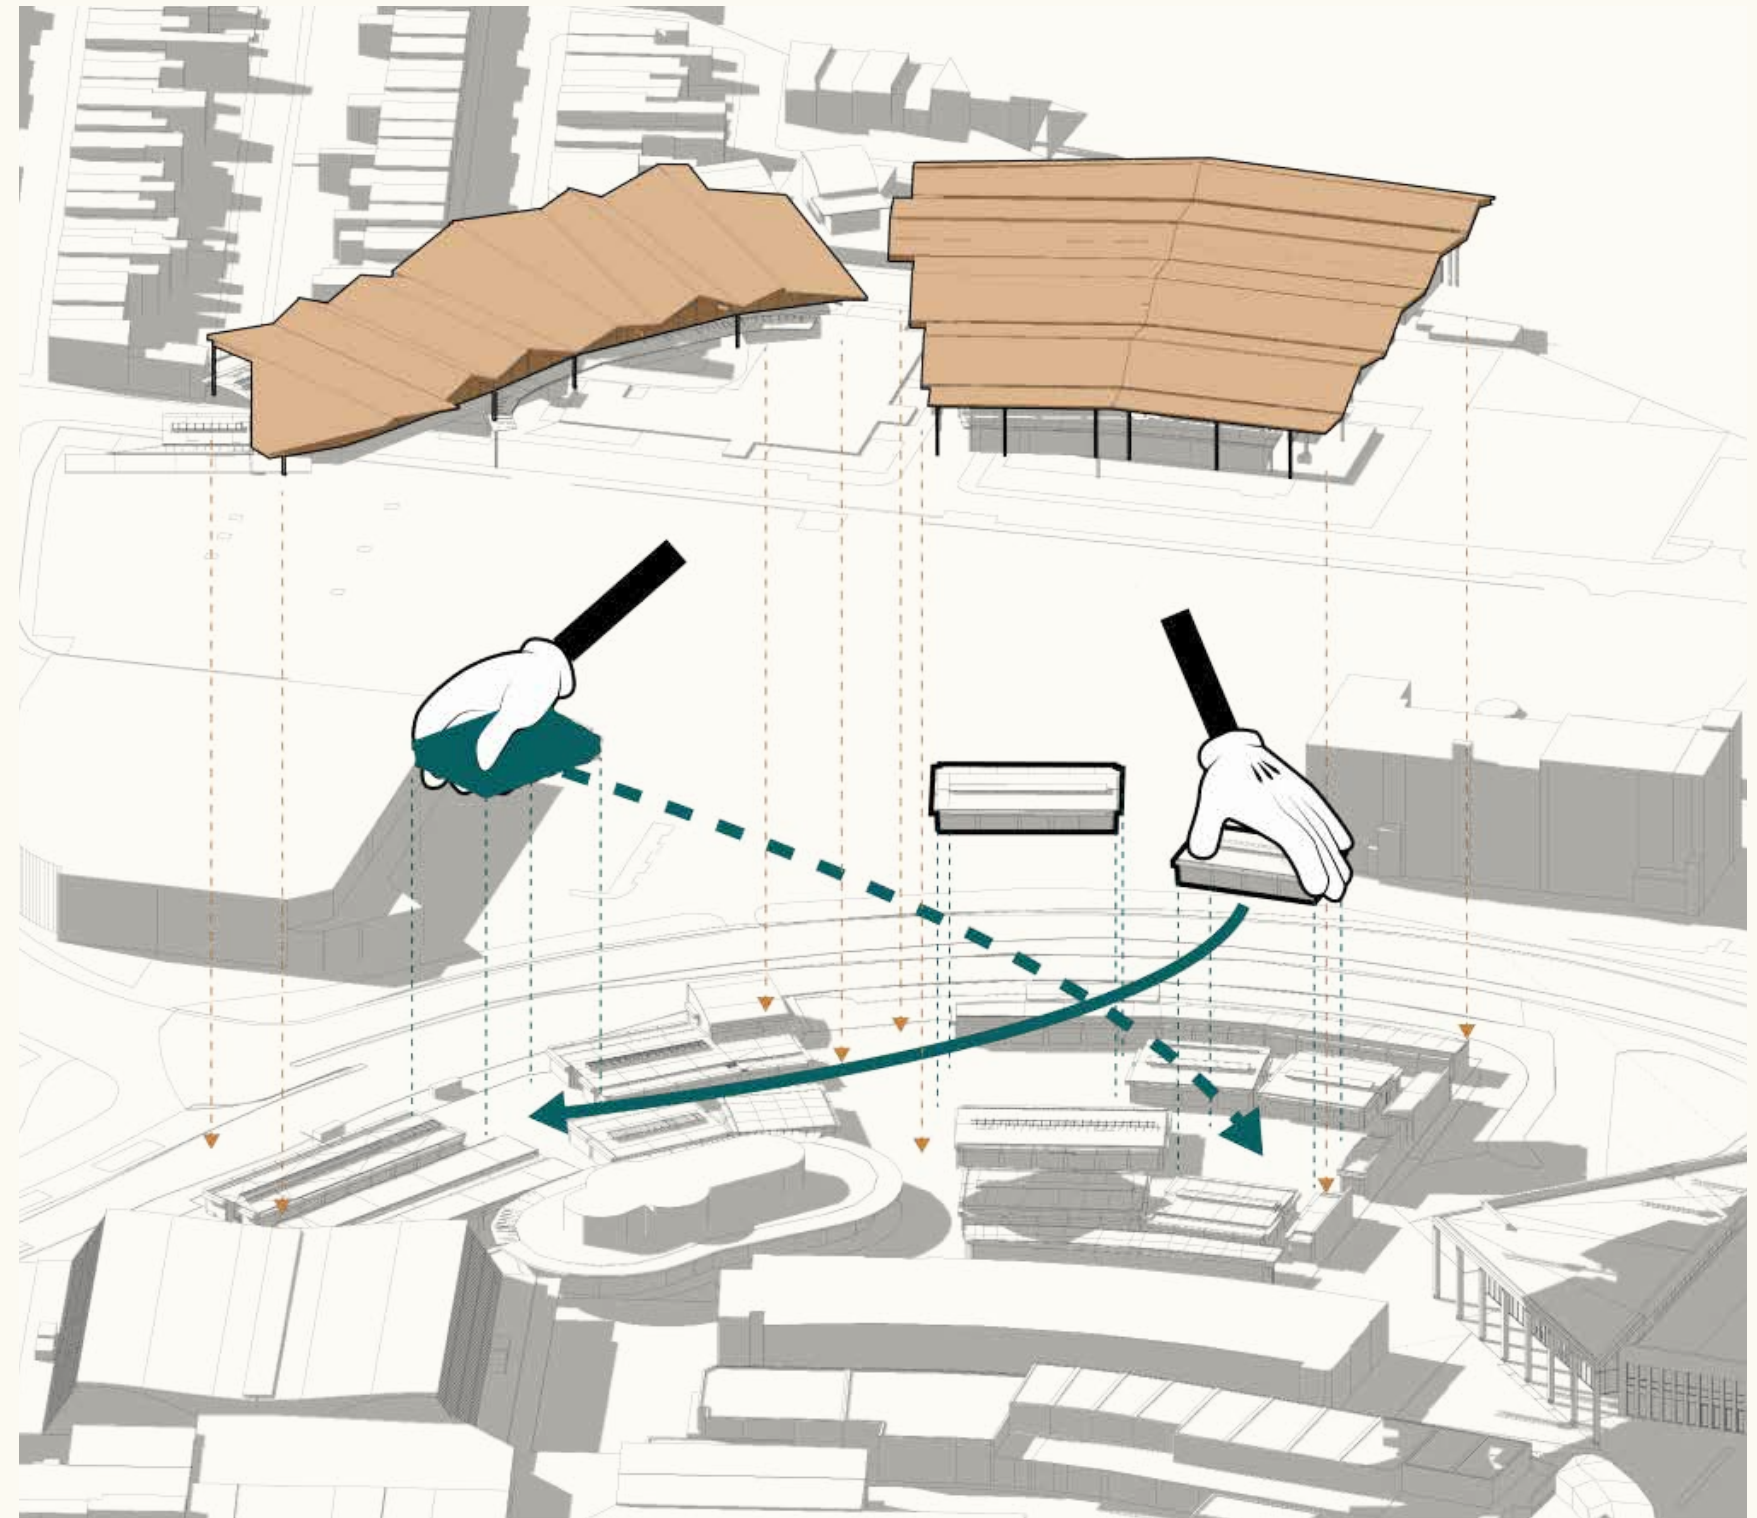

FUTURE PROOFING

Bury Market has a rich thriving community that has remained a consistent staple in the greater Manchester area, however, the lack of development and investment over its tenure risks the future of the market's lifespan, without intervention, the market will not survive.

Designed to unify the open-air market, two canopies will be situated across the full extents of the existing market, providing a new roof to an already established and thriving home, without jeopardising the core ethos of the market.

Flexible usage is a key driver for the overall proposed scheme, and this too applies to our vision for the market. We see the proposed canopies as the first step in a long-term regeneration goal for the market, allowing for stalls to interchange and adapt when necessary, creating a market that can acclimatize to changing demand.

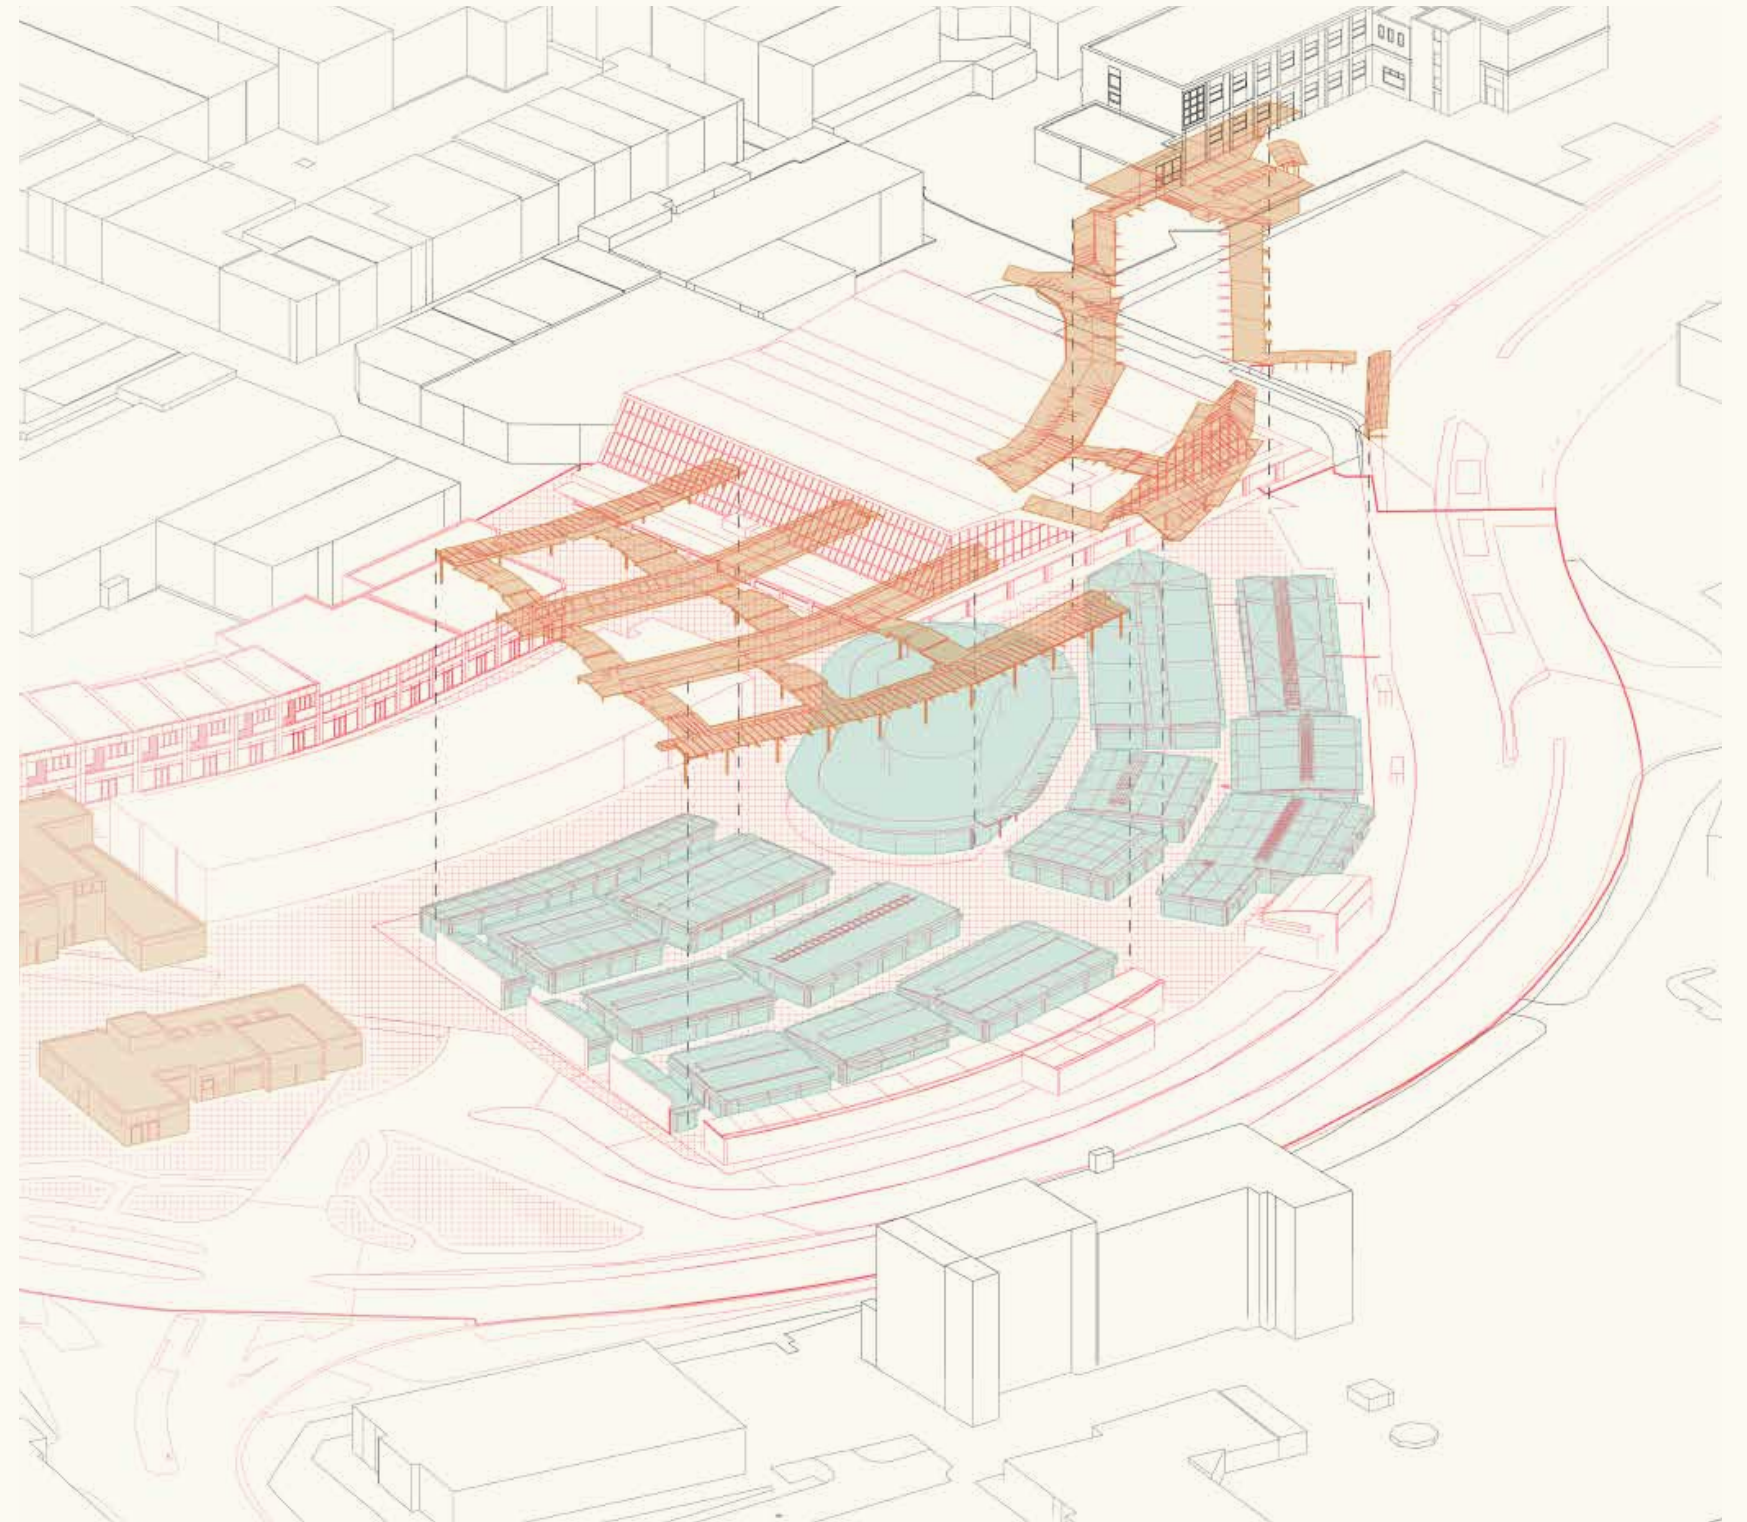

The design team have worked through the detailing of the proposal to ensure that the canopy is durable, long-lasting and a timeless piece of architecture which is consistent with the design of the neighbouring Flexihall proposal

DEMOLITION

The new Market Canopy proposal will require the demolition of the existing polycarbonate walkway roofs, yet look to preserve the roofing structures to the existing market stalls and maintain the existing travel routes throughout the site.

As an integral part of the Bury Market masterplan, the newly designed canopy will seek to serve the existing market through an ample revitalisation of the open air market and provide unity across the unit typology present across the site.

DESIGN DEVELOPMENT

Final Design - Stage 3

The current design combines the more sculptural form of the original canopy and its roof concept of alternating solid and translucent roof sections with the simpler geometry of the second design, incorporating simpler pitches and fewer columns, providing both the aesthetic impact of the original roof and cost effective construction of the second and incorporating good light transmittance and weather protection.

Second Design - Stage 2

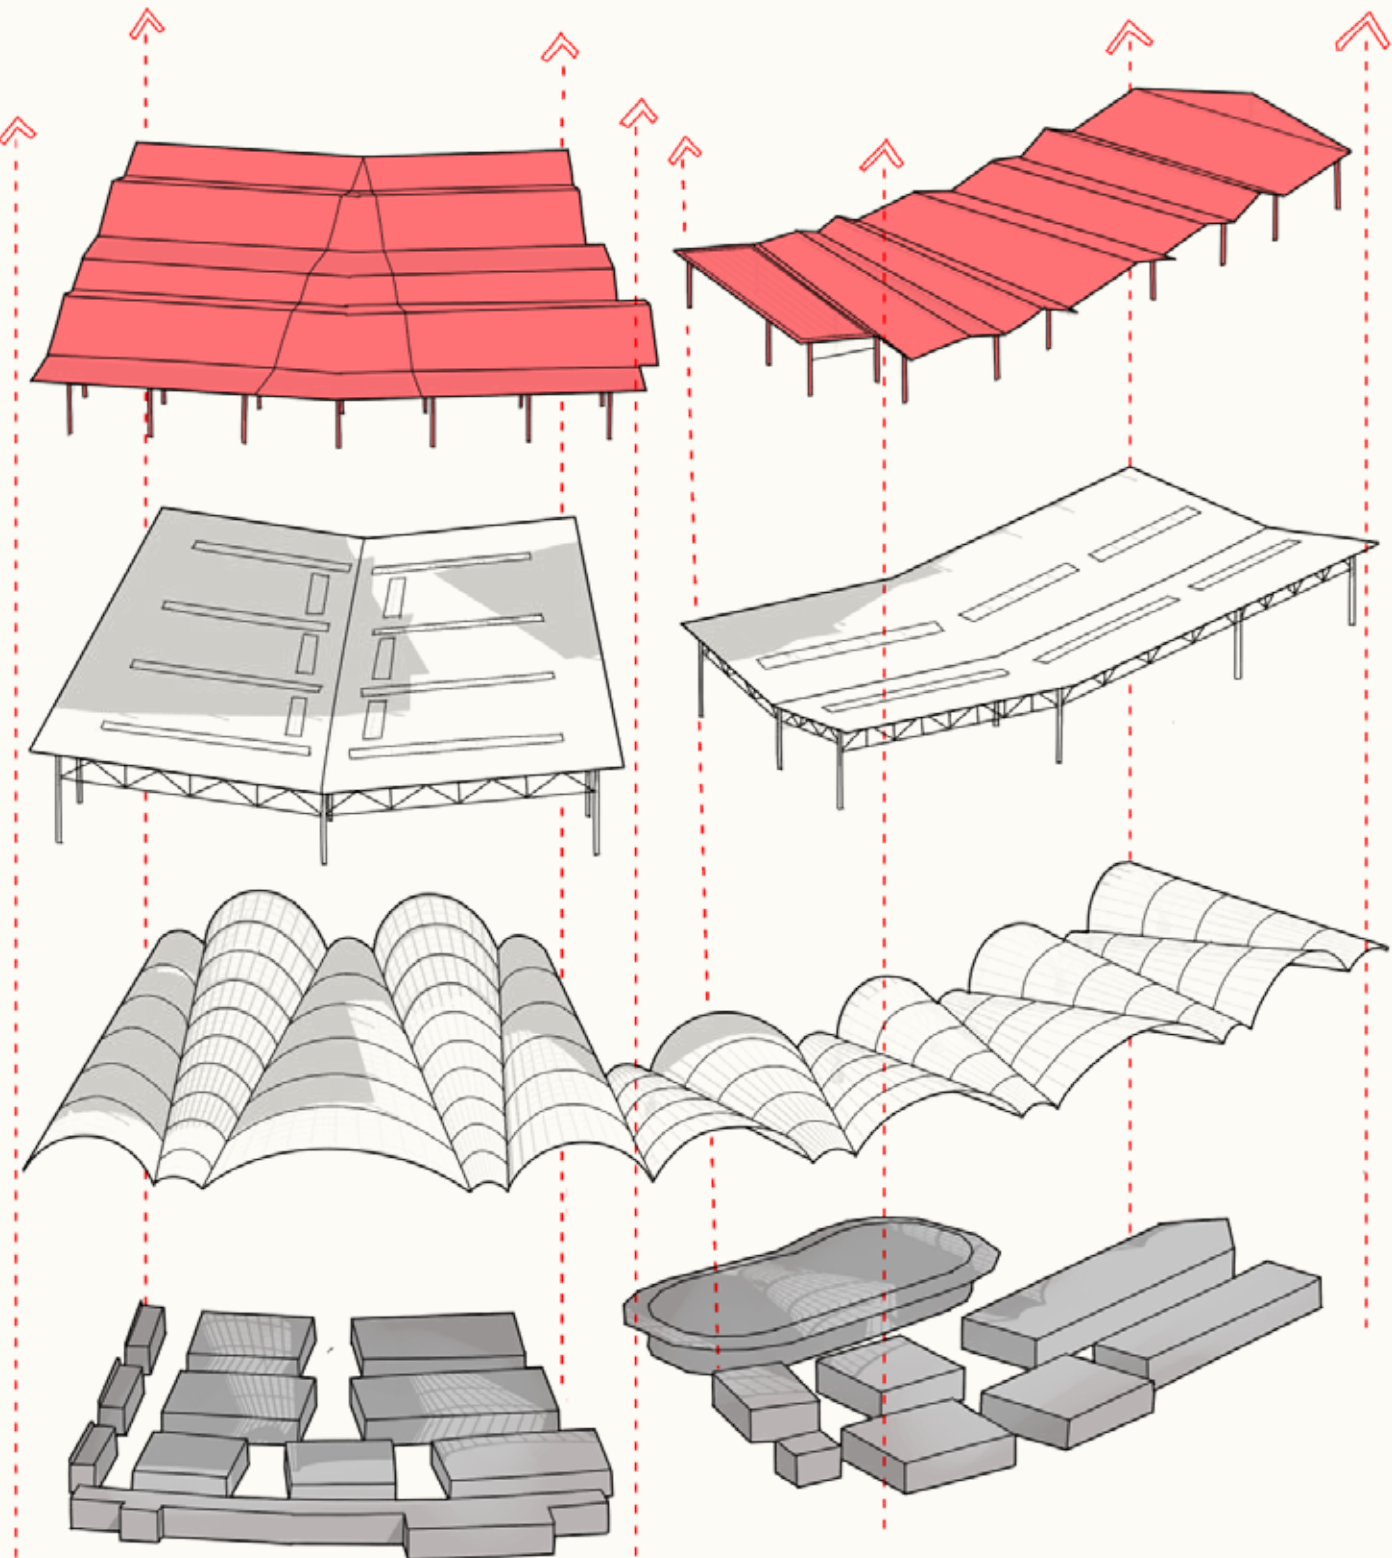

A second iteration of the proposal mimicked the gullway design of the adjacent market hall, minimising the number of columns within the space and providing a simple overarching geometry, however this presented issues for stallholders in regard to the lack of daylight provision and rainwater ingress.

First Design - Stages 0-1

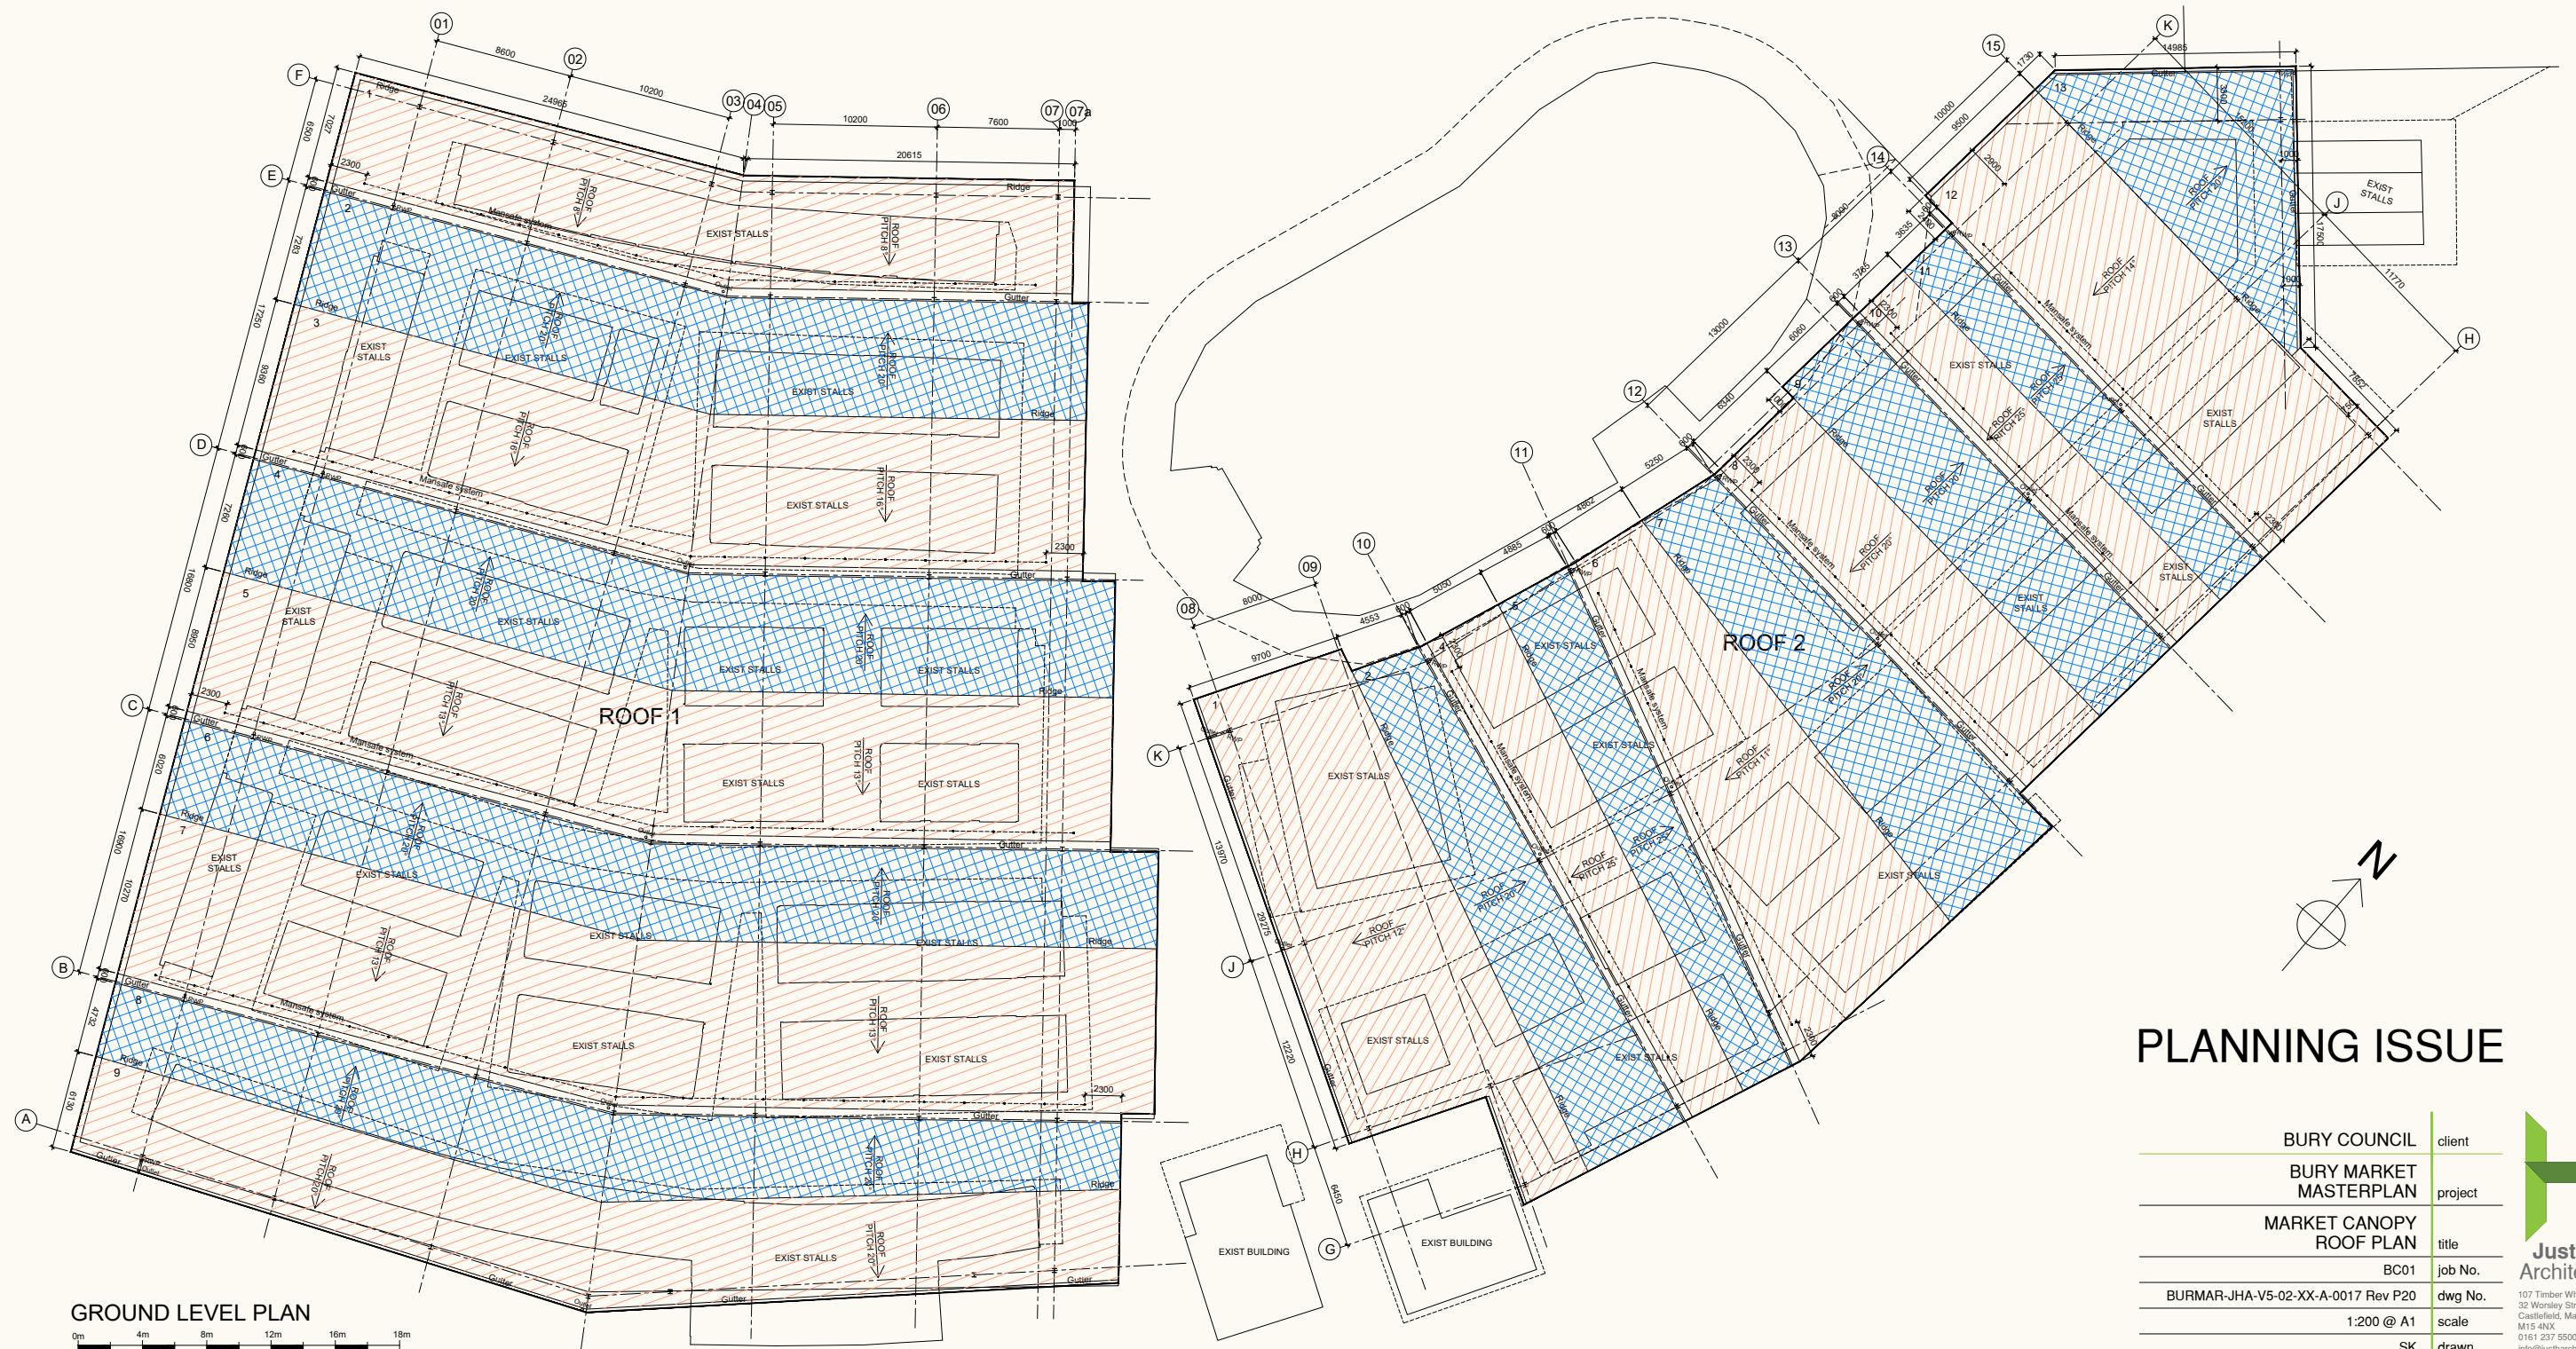

Initial designs looked to create a sculptural wave form over the existing market, however the curved glass elements proved to be unviable

Original Market Stalls

The existing stalls on site are to be retained in order to preserve the unique attraction of the 'world famous' market.

PROPOSED PLANS

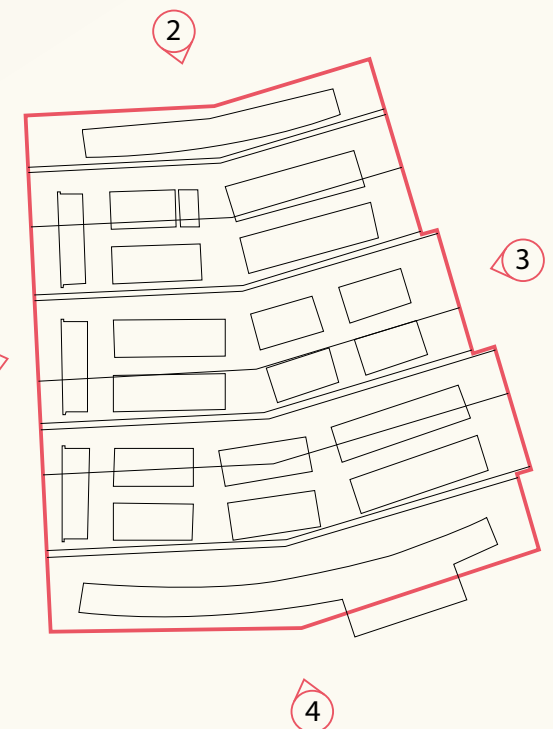

ELEVATIONS - ROOF ONE

ELEVATION 1 - CANOPY ROOF 1

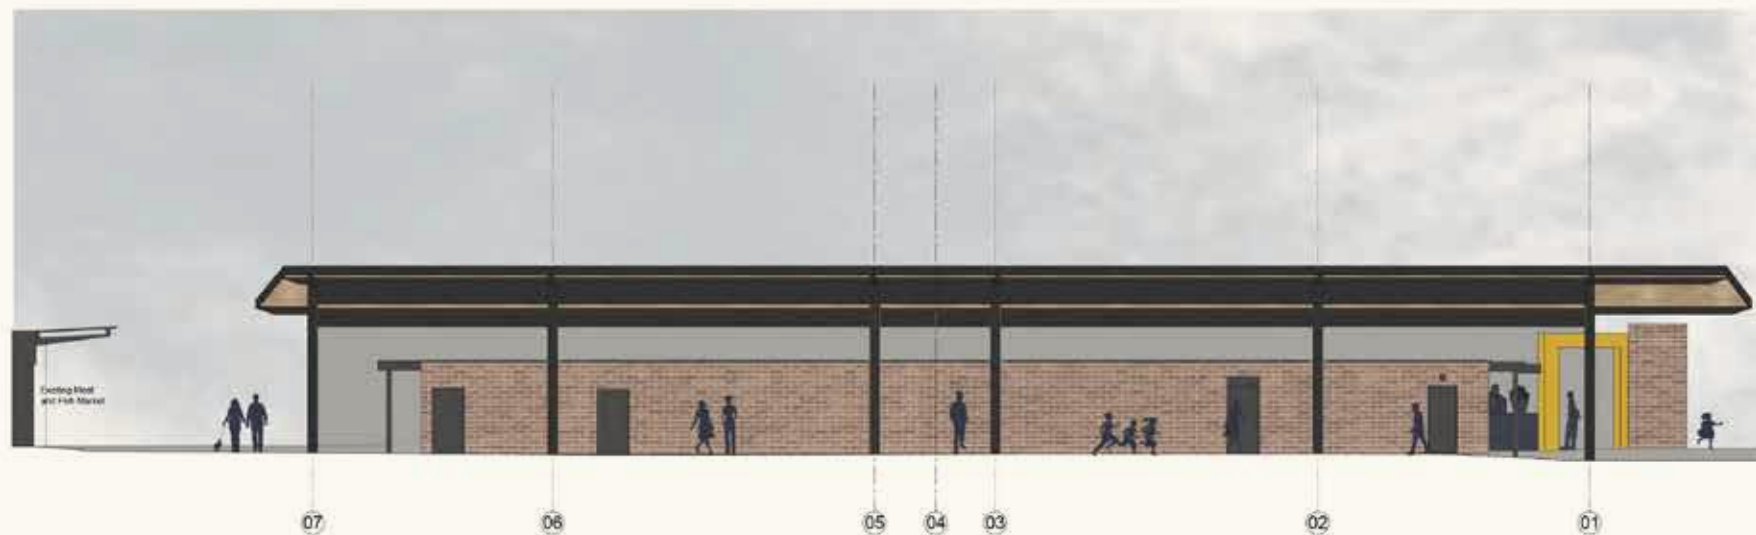

ELEVATION 4 - CANOPY ROOF 1

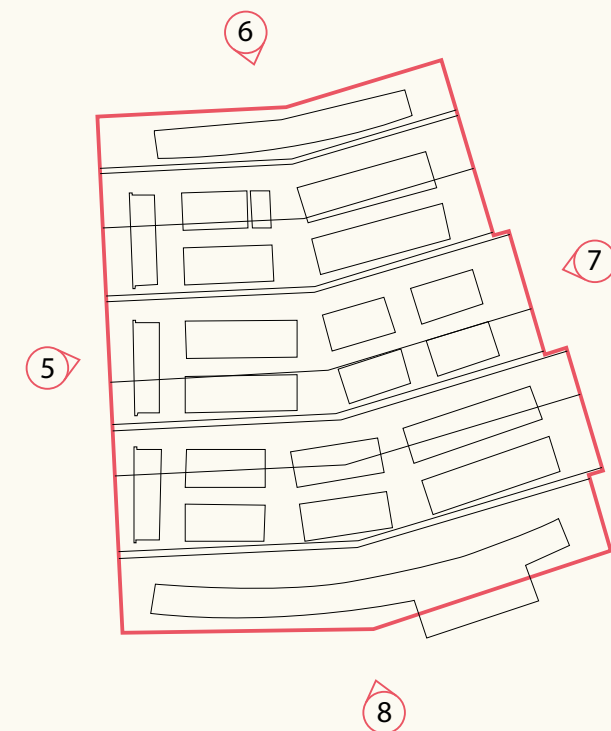

ELEVATIONS - ROOF ONE

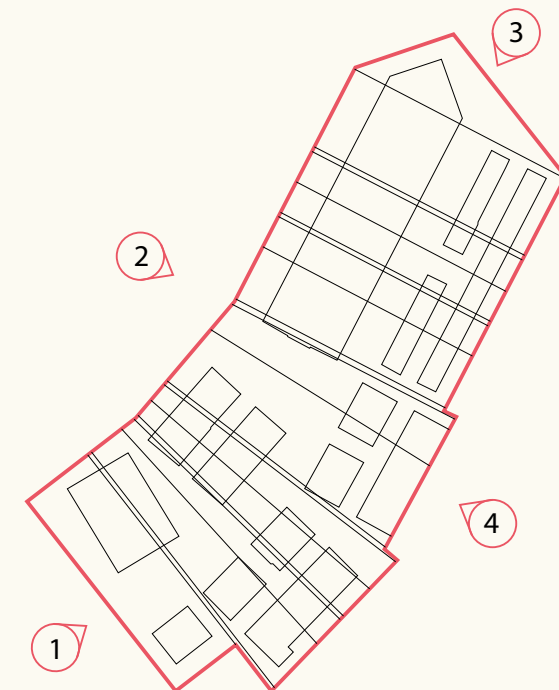

ELEVATION 3 - CANOPY ROOF 1

ELEVATION 2 - CANOPY ROOF 1

Architectural elevation drawing of the canopy roof structure for the Bury Market. The drawing shows a long, low building with a series of gabled roof sections. The roof is supported by a series of vertical posts. The interior of the building is visible, showing various market stalls and people. The roof is labeled "WORLD FAMOUS" and "BURY MARKET". The drawing includes a scale bar at the bottom, ranging from 0m to 18m, and a title "ELEVATION 8 - CANOPY ROOF 2".
