Statement re. Digital Connectivity – Policy JP-C2
15/10/25

Following checks, it can be confirmed that the new development at 2 Delamere Avenue will have access to full fibre to the house connections (unless technically infeasible and /or unviable) and will incorporate multiple ducting compliant with telecoms standards, to facilitate future-proof gigabitcapable network connections. It is expected that internet connections will be operational and immediately accessible to network providers when occupiers move into the new property.
