Hi Gareth,

The Principal Planning officer has been back in touch with me about this query. They have advised that as there would be a change of more than 5 square metres of driveway at the front of the property, it would require planning consent and as it would have more of an adverse impact upon the setting of the conservation area, it could not be a non-material amendment.

They advised that it really would require a fresh application with a heritage statement included to explain what the impact of tarmac at the front of the property would have upon the character and setting of the conservation area. They also suggested, in their opinion, the tarmac would have a negative impact, so they would advise doing a pre-application enquiry. We would need to consult with the conservation officer once the new application/pre-application is received.

I realise this isn't the news you would prefer to hear but please discuss this with your client and if they wish to make the change then they could do the pre-app first if they wish, or you could go straight ahead with the fresh application for the driveway. Either application would be referred to the conservation officer for their comments. Thank you very much.

Kind regards,
Amanda

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
