

Thank you for consulting TfGM in respect of Application 69956, which seeks approval for the operation of a material recycling facility, at Pilsworth Quarry, off Pilsworth Road.

The submitted Traffic Statement (TS) confirms that an additional 8 two-way movements per day are anticipated as a result of the development proposals. Based on the information contained within the TS, the quantum of development does not trigger the requirement for a highway impact review by TfGM.

In terms of other comments, TfGM would note the following:

- The existing access arrangements serving the site will remain unchanged.
- The intended service vehicles will need to be able to enter and exit the site appropriately and safely, carrying out turning manoeuvres within the site.

Many thanks,
