

- What does the Part wall Act say if I want to build up against or astride the boundary line?
- If you plan to build a party wall or party fence wall astride the boundary line, you must inform the Adjoining Owner by serving a notice.
- You must also inform the Adjoining Owner by serving a notice if you plan to build a wall wholly on your own land but up against the boundary line.
- The Act contains no enforcement procedures for failure to serve a notice. However, if you start work without having first given notice in the proper way, Adjoining Owners may seek to stop your work through a court injunction or seek other legal redress.**
- How long in advance do I have to serve the notice?
- At least one month before the planned starting date for building the wall. The notice is only valid for a year, so do not serve it too long before you start to work.
- What happens after I serve notice about building astride the boundary line?

If the Adjoining Owner agrees within 14 days to the building of a new wall outside the boundary line, the work (as agreed) may go ahead. The expense of building the wall may be shared between the owners where the benefits and use of that wall will be shared. The agreement must be in writing and should record details of the location of the wall, the location of costs and any other agreed conditions. If the Adjoining Owner does not agree, in writing, within 14 days, to the proposed new wall outside the boundary line, you must build the wall wholly on your own land, and wholly at your own expense. However, you have a right to place necessary footings for the new wall under your neighbour's land subject to compensating for any damage caused by building the wall. If you enjoy the foundations, you have no right to place reinforced concrete under your neighbour's land without their express written consent. You may start work 1 month after your notice was served. What does the Act say I want to excavate near

neighbouring building?;

If you plan to excavate, to excavate and construct foundations for a new building or structure, within 3 metres of a neighbouring owner's building or structure, where that work will go deeper than the neighbour's foundation; or

If you plan to excavate, to excavate and construct foundations for a new building or structure, within 6 metres of a neighbouring owner's building or structure, where that work will not cut a free drain downside of 40° from the bottom of the neighbour's foundation.

"Adjoining Owners" means the owners of the adjoining foundations.

"Applying Owners" means any next-but-one neighbour if they have foundations within 6 metres. The notice must state whether you propose to strengthen or replace the foundations of the adjoining owner's building or structure.

"Proposed Building" means the building or structure to be built. Plans and sections showing the location and depth of the proposed excavation or foundation and the location of any proposed building.

"The Act" denotes no enforcement procedure for failure to serve a notice. However, if you start work without having first given notice to the owner, you may be liable to prosecution for this offence. Work carried out in breach of the Act may be stopped by the council.

"Other Owners" means any other adjoining owners.

NOTE THE CLIENT IS ADVISED TO READ THE PARTY WALL ACT 1996 FULLY FOR EXAMPLES OF NOTICES SERVED AND FOR FURTHER INFORMATION WITH REGARDS TO THE ABOVE.

Approved Document P (Electrical Safety)

All Electrical Work to which the Requirements of Part P (Electrical Safety) apply will be designed, installed, inspected and tested by a person competent to do so. To completion of works the Local Authority must be satisfied that either: An Electrical Installation certificate issued under a "Competent Person" scheme has been issued or Appropriate certificates and forms defined in BS 7571(as amended) have been submitted that confirm that the work has been inspected and tested by a "competent person". A "competent person" will have a sound knowledge and suitable experience relevant to the nature of the work undertaken and to the technical standards set out in BS 7571, be fully versed in the inspection and testing procedures contained in the regulations and employ adequate testing equipment.

NOTE: THE ELECTRICAL LAYOUT SHOWN IS FOR BUILDING REGULATIONS SUBMISSION ONLY.

THE BUILDING INSPECTOR MUST BE INFORMED OF ANY CHANGES TO THE LAYOUT PRIOR TO WORKS COMMENCING AND WORKS TO BE CARRIED OUT BY A COMPETENT PERSON AS DESCRIBED ABOVE.

CONTRACTOR TO AGREE POSITION OF ELECTRICAL ITEMS AND RADIATORS WITH CLIENT PRIOR TO WORK COMMENCING
