

B&B DEVELOPMENTS ROSSENDALE LTD

Removal of Hogweed at the Warth Industrial Park, Bury.

31/03/2025

To whom it may concern,

Our workers had full PPE of protective long sleeved clothes, protective gloves and eye masks to avoid contact with skin.

The plants were loosened up with a fork and was able to safely remove from the roots, they were then advised to mulch the ground after removal.

We then put all the plants in a large metal bin and they were then burned down.

If there is anything else you require from us please let me know.

Yours sincerely

Paul McGauley

Director
