Description

Please describe details of the proposed development or works including any change of use

Currently the site has only small male changing rooms, in an aging building, which do not meet suitable welfare and safety standards, we would like to install two portakabins to be used as shower rooms and changing rooms for male and female employees. These will be temporary until a more suitable area can be found for long term use.

At the rear of the site there is a carparking area, this is where the Portakabins will be sited, there are houses approx. 35 metres away from where the location will be, however this is screened by trees. Please refer to site plans.

Principle (Employment) - Policy EC2/1 states that in the defined Employment Generating Areas (EGA), the Council will only allow development for the uses specified. Other uses will only be permitted where they constitute limited development or do not substantially detract from an area's value as an EGA.

The proposed development would provide a portacabin for a temporary period of 3 years to provide changing facilities. As such, the proposed development would be in conjunction with the B2 use operating on site and as such, would be acceptable in principle. Therefore, the proposed development would be in accordance with Policy EC2/1 of the Bury Unitary
