

Door and window schedule for conversion of barns at Barrack Fold Farm

Ref: 23/1285/16 – Door and window schedule

Details for windows & doors required in respect of condition 5 of listed buildings consent ref; 69803, and condition 3 of planning consent ref; 69812. Refer to drawing ref; 23/1283/14 for details of window type and drawing ref; 23/1283/15 for details of door type.

Windows and doors to barn conversions to be aluminium frames by Aluna or similar and approved. All frames to be black (RAL 9005).

Aluna aluminium frames selected due to;

- Appearance & finish; slim frame profile.
- Weather performance; passes highest exposure category under BS 6375 (wind resistance & weather performance).
- Security; passes the security standard BS7950 and PAS 24 (security performance for doors) enabling compliance to Secure by Design.
- Thermal performance; exceeds current building regulations standard and can be specified to Passivhaus standard. Achieves the best possible window energy rating (WER) and is an A rated window.

Front entrance doors to be composite doors with half glazed top panel, to be Hurst composite doors or similar and approved.

Roof lights to be top hung (GGL) Conservation roof lights by Velux, with black external profiles (RAL colour 9005), recessed installation for slate roofs.
