Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Details of the pre-application advice received

The proposed use is a little confusing. A personal permission may therefore be needed to ensure that the site is retained in connection with Sunnybank.

More detail required ..on the number of employees proposed to use the site

Conversion

Conversion of the stables appears to comply with UDP and NPPF policies provided the stables are of a permanent and substantial construction, and are capable of conversion. A structural survey should be submitted.

Gym use

Paragraph 9.1 of SPD 6 states that proposals to build a supplementary family annexe will be considered on the individual merits of each scheme.

Consideration also needs to be given to how the proposal would be linked to the main dwelling in terms of hard surfaced areas and pathways.

Business Use

As the proposal is conversion of an existing building it would appear to comply with paragraph 84. The application needs to be supported with further information on how the office use would be implemented and utilised.

Layout and Design

When considering new additions and openings, the approach should be one sympathetic and appropriate to a location of a sensitive and special landscape character. The key objective should be to facilitate the new use whilst retaining the original character and identity of the building.

Given the sensitive nature of the site full details of landscaping, and any proposed hardstanding and boundary treatments should be carefully considered and included within any site layout plan submitted. A site section should also be included to show how the gym area would be implemented.

Highways

The Traffic Section ... raise the following issues :

- Would this use/site be linked to the existing house and form an annex rather than a separately operated business?
- In view of the intensification of daily use of the site access, adequate visibility would need to be demonstrated/provided at the junction of the site access. 2.4m x 59m splays would be appropriate.
- Whatever number of (parking) spaces are required ... should be detailed;
- The outward opening gate needs to be changed to either a sliding one or one that opens inwards ...:
- A segregated pedestrian access should be provided;
- Refuse collection arrangements should be proposed.

Based on the environmental setting.. it is recommended that a desk study/preliminary risk assessment is carried out.

Air Quality

An air quality assessment will not be required.

Recommend that a condition be attached that requires the installation of EV charging point.

Coal Authority

The applicant obtain coal mining information for the application site and submits a Coal Mining Risk Assessment.

Ecology

- This initial assessment was undertaken 2 years ago.... updates might be necessary.
- GMEU wish to see any submission incorporate biodiversity enhancement within the landscape scheme.

Heritage

.... the planning application for the proposal will need to be accompanied by a heritage assessment

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
