Subject: Re: FW: 69052 and 69053: 11 Bridge Street, Ramsbottom, Bury, BL0 9AB and - Additional information required and agreement to extend the statutory decision date

Dear Claire

Thank you for your email and apologies for the delay.

We have been trying to work out any possibility of reducing noise with patrons whilst seated and one of the manufacturer we communicated with failed to respond in time.

We do believe in the possibility of reducing outside seating hours to say 18:00 or 21:00. These would be inline with many local authorities who offer outside seating. You can very easily adopt these hours by way of condition if decision is granted.

The alternative was some form of acoustic awning which folds our etc but I couldn't get enough information from a manufacturer.

You may even add a condition for approval in terms of the outside seating noise management which requires approval if you feel the reduced outside seating hours is not satisfactory.

We look forward to hearing from you soon.

Kind regards

Turabi
