

- Key:
- Ownership boundary
 - Proposed developments
 - Chambord bat box x4
 - 1B Schwegler nest box x3
 - Garden life hedgehog house x2
 - 3S Schwegler starling nest box x1

Notes

Bat Boxes are to be installed on suitable large trees at a minimum of 4m above the ground. Boxes should be positioned facing south to south east to receive warmth from the sun. They should be placed where the flight path is not blocked by obstructions or vegetation and should be placed in sheltered locations.

Bird boxes are also to be placed on suitable large trees at a minimum height of 2.5m above the ground. The boxes should be positioned facing north and north east to avoid strong sunlight and high winds. They should not be placed where the flight path is blocked by obstructions or vegetation.

Boxes of similar dimensions and specifications but different brands can be used.
