

VOI GROUP LTD

3rd November 2022

Dear Sir/Madam,

This is a brief outline of the activities that will be carried out by VOI Group Ltd & the need for us to obtain a Lawful Development Certificate.

VOI Group Ltd was set up to provide a professional chauffeur service to its clients, the business will recruit drivers who will be self-employed and who will be working from the confinement of their own homes & use their own vehicles to carry out jobs allocated.

All interaction with the drivers will be via Email & Telephone, we are currently in the process of developing an App based system which, once ready will be the main means of communication with our customers & drivers. There is strictly no cash exchanges with customers & drivers, as all trips will be pre-paid it is a simple case of pickup & drop of to destination.

Depending on how the business grows in the future we would initially proceed as a home based operation & utilise office/study space within the home address, hence the need for this application to obtain the exemption & provide the Lawful Development Certificate to Salford Licensing in order for them to issue us with a PCO license.

I hope the above information helps with our application & I would be happy to answer any questions or queries you may have.

Kind Regards

Razwan Ahmed
Company Director
