**LDfC:** 26/07/2024

**Expiry Date:** 26/08/2024

**Site Visit:** 09/08/2024

**Site Notice:** N/A

**Press Date:** N/A

**Objections:** 0

**Con Area:** N/A

**Adv Type:** NONE

**Reason for Delay:**

**EIA:** NA

N/A

**Dec Level:** DEL

**Stat Class:** HOUS

**Proposal:** Single storey side extension

**Location:** 250 Turton Road, Tottington, Bury, BL8 4AJ

### **Description**

The application relates to a two storey stone detached house located on Turton Road, Tottington. It is within the designated Green Belt with open fields to the east and south sides. Along the front boundary is a tall hedge and there is a lot of planting and mature trees to the rear garden. To the north side of the dwelling is a driveway and detached double garage and to the south of site there is an electrical sub-station.

The proposal is to build a single storey side extension which would provide a ground floor wc and a utility room/hallway with access to the rear garden. It would measure 4675mm x 3550mm. The ground level to the side of the house is a lot lower compared to the existing dwelling so the structure would measure a maximum of 4918mm to the ridge, when measured from the ground level of the dwelling but it's overall height would be 5580mm from the lower ground level. The extension would be built with materials to match the existing building with the addition of a modern glazed link section in between the original property and the extension.

### **Relevant Planning History**

N/A

### **Publicity**

4 neighbours notified on 05/07/24 - No comments or objections received.

### **Statutory/Non-Statutory Consultations**

Electricity North West Ltd - No objection received but they did advise that given the distance to their facility the proposed development may have an impact on that. Their email was forwarded to the agent. An informative would be added to the decision regards these comments.

**Pre-start Conditions** - Not relevant.

## Issues and Analysis

The following report includes analysis of the merits of the application against the relevant policies of both the National Planning Policy Framework (NPPF), the adopted Places for Everyone Joint Development Plan Document (PfE) and the saved policies within the adopted Bury Unitary Development Plan (UDP), together with other relevant material planning considerations.

The policies of the UDP that have been used to assess this application are considered to be in accordance with the NPPF and as such are material planning considerations. For simplicity, just the UDP and PfE Policies will be referred to in the report, unless there is a particular matter to highlight arising from the NPPF where it would otherwise be specifically mentioned.

**Equality Act 2010:** All planning applications are considered in light of the Equality Act 2010 and associated Public Sector Equality Duty, where the Council is required to have due regard for:

The elimination of discrimination, harassment and victimisation;

The advancement of equality of opportunity between persons who share a relevant protected characteristic and person who do not share it;

The fostering of good relations between persons who share a relevant protected characteristic and person who do not share it; which applies to people from the protected equality groups.

**Human Rights:** All planning applications are considered against the provisions of the Human Rights Act 1998.

Under Article 6 the applicants (and those third parties who have made representations) have the right to a fair hearing and to this end full consideration will be given to their comments.

Article 8 and Protocol 1 of the First Article confer a right to respect private and family life and a right to the protection of property, ie peaceful enjoyment of one's possessions which could include a person's home, and other land and business assets.

In taking account of the Council policy as set out in the Bury Unitary Development Plan 1997 and all material planning considerations, it is concluded on balance that the rights conferred upon the applicant/ objectors/ residents/ other interested party by Article 8 and Article 1 of the First Protocol may be interfered with, since such interference is in accordance with the law and is justified in the public interest. Any restriction of these rights posed by refusal/ approval of the application is legitimate since it is proportionate to the wider benefits of such a decision, is based upon the merits of the proposal, and falls within the margin of discretion afforded to the Council under the Town & Country Planning Acts.

**The Crime and Disorder Act 1998** imposes (without prejudice to any other obligation imposed on it) a duty upon the Council to exercise its functions and have due regard to the likely effect of the exercise of its functions on, and the need to do all that it reasonably can to prevent crime and disorder in its area. In so doing and on making planning decisions under the Town and Country Planning Acts, the material Planning considerations shall have due regard to the provisions of the Crime and Disorder Act 1998 and its implications in the exercise of its functions.

The main considerations of this application are the impact of the proposal on visual and residential amenity, and the impact of the proposal on the surrounding Green Belt.

## Principle (Green Belt)

Paragraphs 152 and 153 state that inappropriate development in the Green Belt is by definition, harmful and should not be approved except in Very Special Circumstances (VSC). Planning Authorities should ensure that substantial weight is given to any harm in the Green Belt. VSC will not exist unless the potential harm to the Green Belt by reason of inappropriateness, and any other harm resulting from the proposal, is clearly outweighed by other considerations.

Paragraph 154 of the NPPF regards the construction of new buildings in the Green Belt as inappropriate development. Exceptions to this are:

- a) buildings for agriculture and forestry;
- b) the provision of appropriate facilities (in connection with the existing use of land or a change of use) for outdoor sport, outdoor recreation, cemeteries and burial grounds and allotments; as long as the facilities preserve the openness of the Green Belt and do not conflict with the purposes of including land within it;
- c) the extension or alteration of a building provided that it does not result in disproportionate additions over and above the size of the original building;
- d) the replacement of a building, provided the new building is in the same use and not materially larger than the one it replaces;
- e) limited infilling in villages;
- f) limited affordable housing for local community needs under policies set out in the development plan (including policies for rural exception sites); and
- g) limited infilling or the partial or complete redevelopment of previously developed land, whether redundant or in continuing use (excluding temporary buildings), which would:
  - not have a greater impact on the openness of the Green Belt than the existing development; or
  - not cause substantial harm to the openness of the Green Belt, where the development would re-use previously developed land and contribute to meeting an identified affordable housing need within the area of the local planning authority.

Policy OL1/2 - New Buildings in the Green Belt states that the construction of new buildings in the Green Belt is inappropriate unless it is for agriculture and forestry; essential facilities for outdoor sport and recreation; limited extension, alteration or replacement of existing dwellings provided that this would not result in disproportionate additions over and above the size of the original dwelling; and limited infilling in existing villages as set out under Policy OL1/3.

This is further supported by Supplementary Planning Document 8 - New Buildings and Associated Development in the Green Belt which state that extensions of existing dwellings should not result in disproportionate additions over and above the size of the original dwelling. To assist in what can be considered to be disproportionate SPD 8 considers additions of up to a third (33%). However, that is not to say something larger, or smaller than 33%, would not be supported as each case is considered on its own merits.

The agent has submitted Green Belt calculations that advise the proposed extension, along with the existing dormer, would equate to 8.8% of the volume of the original building. The proposed extension would be a relatively small development on the side of the existing dwelling and it would be built with materials and a design that would retain the character of the existing dwelling. It would be set well back from the front elevation and would not project beyond the rear elevation of the house and it would be built wholly within the residential curtilage. It would not be considered to be a disproportionate addition to the original dwelling and would therefore not have a detrimental impact on the openness of the Green Belt complying with the policy considerations set out above. As the proposed extension would therefore be less than 33% of the volume of the original building it would comply with guidance.

#### **Visual Amenity -**

SPD 6 and UDP Policy H2/3 seek to achieve a high standard of design that compliments the original building, and does not have a detrimental impact on the character and

appearance of neighbouring properties and the general street scene.

The proposed extension would be built with materials and a design that would be considered to be in keeping with the existing building and the glazed link between the existing building and the extension would add a contemporary look to the development. The extension would be single storey only and would be set back from the front elevation of the property. The hedge along the front boundary would also screen most of the extension from view from Turton Road in front.

Taking the above into account the proposed development would not have any significant detrimental effect on the character of the existing streetscene and it would conform to Bury UDP Policy H2/3 - Extensions and Alterations and the guidance in Supplementary Planning Document 6 – Alterations and Extensions to Residential Properties in terms of visual amenity.

**Residential Amenity -**

- There are no residential properties to the east side of the site.
- The position of the extension would not interfere with existing parking arrangements within the site.
- The separation distance between the extension and properties on the opposite side of Turton Road would be more than sufficient in terms of SPD 6.

The proposal conforms to UDP Policy H2/3 - Extensions and Alterations and the requirements of Supplementary Planning Document 6 – Alterations and Extensions to Residential Properties in terms of separation distance to the surrounding properties.

**Parking -**

The proposal would not increase the number of bedrooms therefore SPD 11 Parking Standards need not be considered. The parking arrangements would remain as existing where there is parking to the driveway and garage to the north side of site.

**Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015**

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively and positively to issue the decision without delay. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

**Recommendation:** Approve with Conditions

**Conditions and Reasons:**

- 1 The development must be begun not later than three years beginning with the date of this permission.  
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.
- 2 This decision relates to drawings numbered ZT24-196-01, ZT24-196-02, ZT24-196-03, ZT24-196-04 and ZT24-196-05 and the development shall not be carried out except in accordance with the drawings hereby approved.  
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design pursuant to the policies of the Bury UDP Policy H2/3 - Extensions and Alterations and the guidance in Supplementary Planning Document 6 – Alterations and Extensions to Residential Properties.
- 3 The external finishing materials for the proposal hereby approved shall match those

of the existing building.

Reason. In the interests of visual amenity and to ensure a satisfactory development pursuant to Policy H2/3 - Extensions and Alterations of the Bury Unitary Development Plan and Supplementary Planning Document 6 - Alterations and Extensions to Residential Properties.
