

148 Ainsworth Rd

The Annex needs to be separate to the main dwelling whilst remaining ancillary.

This allows the annex to be used as intended, for my client's mother to retain some degree of privacy and independence whilst still being under care.

Attaching the annex to the main property is far more complicated and cost prohibitive, and also removes the independence that an annex is designed for.

We have adjusted the window and also agreed to lower the building to work with the neighbours and council.

I can also confirm that the sole use of this annex is for the clients mother's accommodation and care, and will not be used for any other purpose.

Kind regards
Matthew Evans
