Dear Claire

Re: 70583

Temporary installation of five cabins to create 3 no. classrooms, W/C and kitchen facilities for The College of Rugby; Sedgley Park Rugby Union Football Club, Park Lane, Whitefield, Manchester, M25 7PA

Thank you for your consultation letter of 25 April 2024 seeking the views of the Coal Authority on the above planning application.

The Coal Authority is a non-departmental public body sponsored by the Department for Energy Security and Net Zero. As a statutory consultee, the Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

The Coal Authority Response: Material Consideration

I have reviewed the proposals and confirm that part of the application site falls within the defined Development High Risk Area.

The Coal Authority records indicate that within that part of the application site and surrounding area there maybe coal mining features and hazards which should be considered as part of development proposals.

The Coal Authority Recommendation to the LPA

As you will be aware, the Coal Authority's general approach in cases where development is proposed within the Development High Risk Area is to recommend that the applicant obtains coal

mining information for the application site and submits a Coal Mining Risk Assessment to support the planning application.

However, when considering this particular proposal; on the basis that the area where the development will be falls outside the defined Development High Risk Area, we do not consider that a Coal Mining Risk Assessment is necessary for this proposal and **do not object** to this planning application.

Please do not hesitate to contact me if you would like to discuss this matter further.

Yours sincerely

Chris MacArthur
