

ECONOMIC STATEMENT

The proposed development will secure economic benefits by way of both direct employment opportunities, indirect employment opportunities and supply chain benefits.

Direct employment opportunities.

The proposed development will secure between 6 and 12 FTE's. These jobs will range widely in terms of skills, experience and remuneration and there is no reason why positions cannot be secured by the local workforce currently residing in the vicinity of the site. Job opportunities will include drivers, telehandlers, machinery operatives, weighbridge operators, pickers and fitters.

Indirect employment opportunities

The construction of the building will provide employment opportunities for builders, ground workers, scaffolders, metal workers and joiners.

Supply chain benefits

The supply chain benefits include local skip hire firms, recycling businesses, local engineering firms.
