

NOTICE OF PLANNING PERMISSION

Town and Country Planning Act 1990 Town and Country Planning (Development Management Procedure) (England) Order 2015

To:
Keith Berry

On Behalf Of:
Mr Keith Berry

PART 1 - Particulars of Application

Application Number: 68615

Date of Registration: 18/08/2022

Proposal:

Increase existing car park from 802 m2, 43 bays to provide additional 1.354 m2 to create a further 42 car parking bays plus 2 disabled bays and 2 electric car charging stations; New automated gate 2m high to the entrance road to create a two way system; LED lighting

Location:

Philips High School, Higher Lane, Whitefield, Manchester, M45 7PH

PART 2 - Particulars of Decision

Bury Metropolitan Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 that permission has been **GRANTED** for the carrying out of the development referred to in Part 1 hereof in accordance with the application and plans submitted subject to the following conditions:-

- 1 The development must be begun not later than three years beginning with the date of this permission.
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.
- 2 This decision relates to drawings - Existing - Car parking layout, site details and ground levels KB 18314 01 Existing; Proposed existing and proposed plan - Car parking layout levels KB 22301 02 SITE; Additional vegetation application planting areas KB/03/PLANTING and the development shall not be carried out except in accordance with the drawings hereby approved.
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design pursuant to the policies of the Bury Unitary Development Plan listed.
- 3 Where during any works on site, unforeseen contamination is suspected or found, or contamination is caused, works on the site shall cease and the Local Planning Authority shall be notified immediately. The developer shall then produce a risk assessment and submit remediation proposals, if required, for approval to the Local Planning Authority. On approval of the remediation strategy, the development shall then be carried out in accordance with the approved details and process including any required timescales.
Reason. To secure the satisfactory development of the site in terms of human health and the wider environment and pursuant to National Planning Policy Framework

Section 15 - Conserving and enhancing the natural environment.

- 4 There shall be no disposal of excavated material or arisings from the development on the playing field.
Reason. To protect the playing fields from damage, loss or availability of use and to accord with chapter 15 - Conserving and enhancing the natural environment of the NPPF.
- 5 No development shall commence unless and until a 'Construction Traffic Management Plan' (CTMP), has been submitted to and agreed in writing with the Local Planning Authority and shall confirm/provide the following:
- Photographic dilapidation survey of the site access in the event that subsequent remedial works are required following construction of the development;
 - Access point for construction traffic from the adopted highway;
 - Site hoardings (if proposed);
 - Hours of operation and number of vehicle movements;
 - A scheme of appropriate warning/construction traffic signage in the vicinity of the site and its access;
 - Parking on site (or on land under the applicant's control) of operatives' and construction vehicles;
 - Measures to mitigate any loss of existing parking facilities during construction of the development;
 - Storage on site of works/contractors' compound (including any buildings, moveable structures, works, plant, machinery, construction materials, including any requisite phasing of the development to accommodate this;
 - Measures to ensure that all mud and other loose materials are not spread onto the adjacent adopted highways as a result of the groundworks operations or carried on the wheels and chassis of any vehicles leaving the site and measures to minimise dust nuisance caused by the operations;
 - A scheme for the removal of the works/contractors' compound and the restoration of the land on which it is situated.
- The approved plan shall be adhered to throughout the construction period and the measures shall be retained and facilities used for the intended purpose for the duration of the construction period.
- The areas identified shall not be used for any other purposes other than the parking of vehicles and storage of construction materials. All highway remedial works identified as a result of the dilapidation survey shall be implemented to the written satisfaction of the Local Planning Authority prior to the development hereby approved being occupied.
- Reason. To protect playing fields/sports facilities from damage, loss or availability of use and to maintain the integrity of the adopted highway, mitigate the impact of the construction traffic generated by the proposed development on the adjacent adopted highways, ensure adequate off street car parking provision and materials storage arrangements for the duration of the construction period and that the adopted highways are kept free of deposited material from the ground works operations, in the interests of highway safety pursuant to Bury Unitary Development Plan Policies EN1/2 - Townscape and Built Design and HT6/2 - Pedestrian/Vehicular Conflict and the principles of the NPPF.
- 6 The car parking, one way working arrangements and pedestrian facilities indicated on the approved plans shall be surfaced, demarcated and made available for use and thereafter maintained at all times.
- Reason. To ensure adequate off street car parking provision in the interests of road safety pursuant to policy HT2/4 - Car Parking and New Development of the Bury

Unitary Development Plan.

- 7 No development shall commence unless and until surface water drainage proposals have been submitted to and approved in writing by the Local Planning Authority. The scheme should be in accordance with the submitted Surface Water Sustainable Drainage Assessment and must be based on the hierarchy of drainage options in the National Planning Practice Guidance and be designed in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015). This must include assessment of potential SuDS options for surface water drainage with appropriate calculations and test results to support the chosen solution. Details of proposed maintenance arrangements should also be provided. The approved scheme only shall be implemented prior to first occupation and thereafter maintained.
Reason. The current application contains insufficient information regarding the proposed drainage scheme to fully assess the impact. To promote sustainable development and reduce flood risk pursuant to Unitary Development Plan Policies EN5/1- New Development and Flood Risk , EN7/3 - Water Pollution and EN7/5 - Waste Water Management and chapter 14 - Meeting the challenge of climate change, flooding and coastal change of the NPPF.
- 8 The additional planting shown to be provided on the approved plans shall include native tree and shrub planting and shall thereafter be implemented not later than 12 months from the date the development is first used or within the first available tree planting season, and any trees or shrubs removed, dying or becoming severely damaged or becoming severely diseased within five years of planting shall be replaced by trees or shrubs of a similar size or species to those originally required to be planted.
Reason. To secure the satisfactory development of the site and in the interests of visual amenity pursuant to Policies EN1/2 - Townscape and Built Design and EN8/2 - Woodland and Tree Planting of the Bury Unitary Development Plan and chapter 15 - Conserving and enhancing the natural environment of the NPPF.
- 9 The two EV chargepoints hereby approved shall be provided prior to the first use of the development hereby approved and thereafter maintained.
Reason. In accordance with the NPPF, to encourage the uptake of ultra-low emission vehicles and ensure the development is sustainable. To safeguard residential amenity, public health and quality of life.

Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively and positively to issue the decision without delay. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

The following policies of the Bury Unitary Development Plan, National and Regional Government were considered relevant:

NPPF	National Planning Policy Framework
EN1/2	EN1/2 - Townscape and Built Design
HT2/4	HT2/4 - Car Parking and New Development
HT6/2	HT6/2 - Pedestrian/Vehicular Conflict
CF1/1	CF1/1 - Location of New Community Facilities
CF2	CF2 - Education Land and Buildings
OL1/1	OL1/1 - Designation of Green Belt

This decision relates only to the Town and Country Planning Acts and does not include any consent or approval under any other enactment or under the Building Regulations. Any other consent or approval which is necessary must be obtained from the appropriate authority.

Applicant Plan Numbers:

Existing - Car parking layout, site details and ground levels KB 18314 01 Existing; Proposed existing and proposed plan - Car parking layout levels KB 22301 02 SITE; Additional vegetation application planting areas KB/03/PLANTING

NOTES TO APPLICANT

. DRAINAGE - United Utilities response

National Planning Policy Framework (NPPF) and the National Planning Practice Guidance (NPPG) advise that surface water from new developments should be investigated and delivered in the following order of priority:

1. into the ground (infiltration);
2. to a surface water body;
3. to a surface water sewer, highway drain, or another drainage system;
4. to a combined sewer.

We recommend the applicant considers their drainage plans in accordance with the drainage hierarchy outlined above.

Please note, United Utilities is not responsible for advising on rates of discharge to the local watercourse system. This is a matter for discussion with the Lead Local Flood Authority and / or the Environment Agency (if the watercourse is classified as main river).

In the event that the applicant, or any subsequent developer, approaches United Utilities regarding a connection for surface water to the public sewer, it is likely that we will request evidence that the drainage hierarchy has been fully investigated and why more sustainable options are not achievable. This will be managed through either our 'S106 Sewer Connections' or 'S104 Adoptions' processes.

If the applicant intends to offer wastewater assets forward for adoption by United Utilities, their proposed detailed design will be subject to a technical appraisal by our Developer Services team and must meet the requirements outlined in 'Sewers for Adoption and United Utilities' Asset Standards'. This is important as drainage design can be a key determining factor of site levels and layout.

The applicant should not presume that the principles outlined within a drainage strategy will meet the detailed requirements for a successful adoption application. We strongly recommend that no construction commences until the detailed drainage design, has been assessed and accepted in writing by United Utilities. Any works carried out prior to the technical assessment being approved is done entirely at the developers own risk and could be subject to change.

WATER AND WASTEWATER SERVICES

If the applicant intends to receive water and/or wastewater services from United Utilities, they should visit our website or contact the Developer Services team for advice. This includes seeking confirmation of the required metering arrangements for the proposed development. See 'Contacts' Section below.

If the proposed development site benefits from existing water and wastewater connections, the applicant should not assume that the arrangements will be suitable

for the new proposal.

In some circumstances we may require a compulsory meter is fitted. For detailed guidance on whether the development will require a compulsory meter please visit <https://www.unitedutilities.com/my-account/your-bill/our-household-charges-20212022/> and go to section 7.7 for compulsory metering.

If reinforcement of the water network is required to meet potential demand, this could be a significant project and the design and construction period should be accounted for.

To avoid any unnecessary costs and delays being incurred by the applicant or any subsequent developer, we strongly recommend the applicant seeks advice regarding water and wastewater services, and metering arrangements, at the earliest opportunity. Please see 'Contacts' section below.

UNITED UTILITIES PROPERTY, ASSETS AND INFRASTRUCTURE

Water pipelines

United Utilities will not allow building over or in close proximity to a water main.

Wastewater pipelines

United Utilities will not allow a new building to be erected over or in close proximity to a public sewer or any other wastewater pipeline. This will only be reviewed in exceptional circumstances.

Nb. Proposals to extend domestic properties either above, or in close proximity to a public sewer will be reviewed on a case by case basis by either by a building control professional or following a direct application to United Utilities (see our website for further details).

Advice relating to both water and wastewater infrastructure

It is the applicant's responsibility to demonstrate the exact relationship between United Utilities' assets and the proposed development. Developer's should investigate the existence and the precise location of water and wastewater pipelines as soon as possible as this could significantly impact the preferred site layout and/or diversion of the asset(s) may be required. Where United Utilities' assets cross the proposed red line boundary, developers must contact our Developer Services team prior to commencing any works on site, including trial holes, groundworks or demolition.

Unless there is specific provision within the title of the property or an associated easement, any necessary disconnection or diversion of assets to accommodate development, will be at the applicant/developer's expense. In some circumstances, usually related to the size and nature of the assets impacted by proposals, developers may discover the cost of diversion is prohibitive in the context of their development scheme.

Any agreement to divert our underground assets will be subject to a diversion application, made directly to United Utilities. This is a separate matter to the determination of a planning application. We will not guarantee, or infer acceptance of, a proposed diversion through the planning process (where diversion is indicated on submitted plans). In the event that a diversion application is submitted to United Utilities and subsequently rejected (either before or after the determination of a planning application), applicants should be aware that they may need to amend their proposed layout to accommodate United Utilities' assets.

Where United Utilities' assets exist, the level of cover to United Utilities pipelines and apparatus must not be compromised either during or after construction and there should be no additional load bearing capacity on pipelines without prior agreement from United Utilities. This would include earth movement and the transport and position of construction equipment and vehicles.

Any construction activities in the vicinity of United Utilities' assets must comply with

national building and construction standards and where applicable, our 'Standard Conditions for Works Adjacent to Pipelines'. This includes United Utilities' assets which may be located outside the applicant's red line boundary.

The applicant or developer should contact our Developer Services team for advice if their proposal is in the vicinity of water or wastewater pipelines and apparatus. It is their responsibility to ensure that United Utilities' required access is provided within their layout and that our infrastructure is appropriately protected. The developer would be liable for the cost of any damage to United Utilities' assets resulting from their activity. Please see 'Contacts' section below.

CONTACTS

Website

For detailed guidance on water and wastewater services, including application forms and the opportunity to talk to the Developer Services team using the 'Live Chat' function, please visit:

<http://www.unitedutilities.com/builders-developers.aspx>

Email

For advice on water and wastewater services or to discuss proposals near to pipelines, email the Developer Services team as follows:

Water mains and water supply, including metering -

DeveloperServicesWater@uuplc.co.uk

Public sewers and drainage - WastewaterDeveloperServices@uuplc.co.uk

Telephone - 0345 072 6067

Property Searches (for asset maps):

A number of providers offer a paid for mapping service including United Utilities. For more information, or to purchase a sewer and water plan from United Utilities, please visit <https://www.unitedutilities.com/property-searches/>

Water and sewer records can be viewed for free at our Warrington Head Office by calling 0370 751 0101. Appointments must be made in advance. Public sewer records can be viewed at local authority offices. Arrangements should be made directly with the local authority.

The position of the underground apparatus shown on asset maps is approximate only and is given in accordance with the best information currently available. United Utilities Water will not accept liability for any loss or damage caused by the actual position being different from those shown on the map.

. The applicant's attention is drawn to the need to consult the Department of Operations regarding the specification for and implementation of the proposed accommodation and footway remedial works. The cost of the works will be the responsibility of the developer.

. Nothing further to report

Signed:

.....

On behalf of the Council

Date of Decision: 14/12/2022
