Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Your local planning authority will be able to advise on the content of any assessments that may be required.

## Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes  
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

**Reason biodiversity net gain does not apply:**

Development subject to the de minimis exemption (development below the threshold)

**What best describes the size of your site?:**

Over 25 square metres

**Please justify the reason why biodiversity net gain does not apply:**

The proposed development is a change of use from Sui Generis (HMO) to Class C3 with no operational development that affects land outside the existing domestic curtilage. The proposal therefore meets the "de minimis" exemption under Schedule 7A of the Town & Country Planning Act 1990, and the general Biodiversity Gain Condition does not apply.

Note: Please read the help text for further information why developments may be exempt or not in scope.

## Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer  
☐ Septic tank  
☐ Package treatment plant

- ☐ Yes

☐ Unknown

## Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- ☒ Yes  
☐ No

If Yes, please provide details:

Waste storage and collection will remain as existing. Bins are stored at the rear with easy access for collection. The change of use will produce less waste.

Have arrangements been made for the separate storage and collection of recyclable waste?

- ☒ Yes  
☐ No

If Yes, please provide details:

The property will continue to use the standard Bury Council domestic waste system, which includes a blue recycling bin (glass, metals and plastics), green recycling bin (paper and card), brown general-waste bin, and food-waste caddy. All bins are stored at the rear of the property with direct access to the street for collection. No changes are required, and the change of use from HMO to a single dwelling will significantly reduce the amount of waste generated.

Does your proposal include the gain, loss or change of use of residential units?
