

Recommended the unforeseen condition due to limited scale and low risk nature of the development with respect to human health. Environment Agency recommendations have concerns regarding the risks to controlled waters due to the proximity of the River Irwell. Consequently, the following conditions will be required:

- **CL01 - CONTAMINATED LAND CONDITION 01: SITE CHARACTERISATION & RISK ASSESSMENT**

No development hereby permitted (except demolition and site clearance) within any approved phase shall take place until the works relating to land contamination detailed below are fully completed:

With consideration to human health, controlled waters and the wider environment, the following documents shall be completed to characterise potential risk to sensitive receptors and submitted to the Local Planning Authority for approval:

- I. Preliminary Risk Assessment (PRA). Submission of this document is the minimum requirement.
- II. Generic Quantitative Risk Assessment (GQRA). Submission of this document only if PRA requires it.
- III. Detailed Quantitative Risk Assessment (DQRA). Submission of this document if GQRA requires it.

Reason. To prevent unacceptable risk to Human Health and Controlled Waters and to prevent pollution of the environment in accordance with the aims and Paragraphs 187(f), 196 and 197 of the National Planning Policy Framework (December 2024).

- **CL02 - CONTAMINATED LAND CONDITION 02: REMEDIATION STRATEGY & VERIFICATION PLAN**

No development hereby permitted (except demolition and site clearance) within any approved phase shall take place until the works relating to land contamination detailed below are fully completed:

In accordance with the findings of site characterisation and risk assessment (add reference if already agreed) as previously approved, documents from the following shall be submitted to the Local Planning Authority for approval:

- I. Remedial Options Appraisal.
- II. Remediation Strategy.
- III. Verification Plan.

Reason. To prevent unacceptable risk to Human Health and Controlled Waters and to prevent pollution of the environment in accordance with the aims and Paragraphs 187(f), 196 and 197 of the National Planning Policy Framework (December 2024).

- **CL03 - CONTAMINATED LAND CONDITION 03: REMEDIATION & VERIFICATION**

The development hereby permitted within any approved phase shall not be occupied/brought into use until the works relating to land contamination detailed below are fully completed:

Where remediation is required, it shall be carried out in full accordance with the approved Remediation Strategy.

A Verification Report must be submitted to the Local Planning Authority for approval upon completion of remediation works. The Verification Report must include information validating all remediation works carried out; details of imported materials (source/quantity/suitability); details of exported materials; and details of any unexpected contamination.

Reason. To prevent unacceptable risk to Human Health and Controlled Waters and to prevent pollution of the environment in accordance with the aims and Paragraphs

187(f), 196 and 197 of the National Planning Policy Framework (December 2024).
