

The builder must check the site and the approved drawings before commencing the works and must take any working measurements as necessary. Any discrepancy in the drawing must be reported to the client .

The image displays three architectural drawings of a property:

- Rear Elevation:** A two-story house with a gabled roof. The upper floor has a large window on the left and a smaller window on the right. The lower floor has a large window on the left and a door on the right.
- Side Elevation:** A single-story house with a gabled roof. It features a central door and a window on the right side.
- Plan:** A ground floor plan showing a Kitchen, Family Room, and a central hallway. The Kitchen is on the right, the Family Room is on the left, and the hallway is in the center. There are stairs leading up from the hallway. The plan also shows a front door and a rear door.

Below the drawings is a table with the following structure:
