Good afternoon Dean

Thank you very much for your email. GMAAS is indeed satisfied that the pre-commencement element of the condition wording has been satisfied in that an appropriate scheme of initial archaeological works has been agreed, as set out in the Written Scheme of Investigation (WSI) submitted in support of the application. I'd suggest that this equates to a 'partial discharge'. GMAAS will be pleased to recommend that the condition is discharged in full once all the archaeological work set out in the agreed WSI has been completed.

I hope that this makes sense.

With kindest regards and best wishes for the festive break.

Ian
