Subject: FW: Breeding bird check - Radcliffe Hub
Importance: High

Hi David,

We had an RSK ecologist out to site yesterday to do a breeding bird survey on the due to be demolished South block. As per the email below they have confirmed that no nesting feral pigeons were present and they are happy that we can continue with demolition unhindered.

Can you please confirm that you are happy for us to proceed with demolition next week?

[@Clapworthy, Dean](#) – With regards to condition 12 and formal discharge is anything further required to be submitted to you to close this out? Note that we will need to do a further survey of the existing TSB bank due to be demolished early next year to completely discharge the condition, but in the meantime could you advise that a partial discharge on the basis of the email below and subject to Davids acceptance is enough for us to proceed with the demo of the South block.

Please give me a call if anything is unclear.

Regards

Tony Harrison

Subject: Breeding bird check - Radcliffe Hub

Good Afternoon Tony,

I am writing to make you aware that RSK Biocensus undertook a breeding bird survey this morning 09/11/23 at the Radcliffe Hub site. The survey was completed and the ecologist found no evidence of nesting feral pigeons or any other bird species at the South Block. We are happy works can proceed without disturbance to birds.

If you have any further questions please do not hesitate to get in touch with me.
Kind regards,

Amy Harris BSc (Hons) MCIEEM
Senior Ecologist
