

Star Radcliffe Academy – Planning Condition 35 Management and Maintenance Scheme

To supplement the LEMP and associated O&M / PPM details submitted with discharging Condition 35, Star Academies (the 'Trust') confirms it will retain responsibility for the ongoing management, maintenance and upkeep of the artificial pitches at the Academy. The Trust will ensure that the pitches are operated and maintained in accordance with the relevant manufacturer's guidance and specialist operation and maintenance manuals, with regular inspections and reviews undertaken to monitor condition, performance and safety. The Trust is committed to ensuring that the artificial grass pitch continues to be fit for purpose and available for sustained use by pupils and the wider community, including making appropriate provision for repair, renewal and replacement when the pitch reaches the end of its design life. Management arrangements and maintenance requirements will be kept under periodic review to ensure continued compliance with the approved Management and Maintenance Scheme.
